Google

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

STATISTICS

OF

RAILWAYS IN THE UNITED STATES.

INTERSTATE COMMERCE COMMISSION,
DIVISION OF STATISTICS,
Washington, D. C., June 1, 1895.

To the Honorable Members of the Interstate Commerce Commission:

SIRS: Pursuant to instructions, I herewith submit the Seventh Annual Report of Railway Statistics in the United States, being the report for the year ending June 30, 1894. The titles of the tables contained in the body of this report are as follows:

Table I. Classification of Railways and Mileage for the Year ending June 30, 1894.

Table II. Amount of Railway Capital at the Close of the Year ending June 30, 1894.

Table III. Earnings and Income for the Year ending June 30, 1894:

A. Earnings from Operation.

B. Income from Property Owned but not Operated.

Table IV. General Expenditures for the Year ending June 30, 1894:

A. Operating Expenses.

B. Fixed Charges and Summary of Expenditures.

Table V. Charges against Income on Account of Railway Capital during the Year ending June 30, 1894.

Table VI. General Balance Sheet for the Year ending June 30, 1894.

Following the established custom of this office, the statistics contained in this report are presented on the basis of territorial classification. The map showing the boundaries of the territorial groups adopted will be found facing the title-page of this report. The only exception to the presentation of statistics by territorial groups will be found in Table VI, that is to say, the table which presents the General Balance Sheet.

In considering the summaries contained in this report it may be well to hold in mind that the year to which they pertain is peculiar in several particulars. In the first place, it includes the last four months of

ugh which the country is passing, but may
ose of explaining the facts of this report a
ence of its own.

MILEAGE.

Washington	2,643.60	167.32	2,810.92	1.57	43.08	4.20	74.48
West Virginia	1,901.77	34.00	1,935.77	1.08	117.56	7.85	23.51
Wisconsin	6,022.95	.....	6,022.95	3.37	12.61	11.06	33.06
Wyoming	1,159.78	.....	1,159.78	.65	9.64	1.19	176.51
Alaska	.....	.....	.....	.....	.....	.....	.....

[1] On basis of 2,970,000 square miles, which covers "land surface" only, and excludes Alaska.

[2] On basis of 67,801,571 population, which covers an estimated increase of 1,250,000 for 1891, 1892, 1893, and 1894.

[3] Decrease.

t was 1.88 per cent; for 1891 it was was 2.
4.78 per cent; for 1889 it was 3.22 per cent;
nt; and for 1887 it was 9.08 per cent. From
rcentage of increase in railway extension dur
report is less than for any previous year, an
way construction does not warrant the hope
to say, for the year ending June 30, 1895,
provement.

eferring to the column in the above summar
une 30, 1893," it is possible to localize the
ileage by States and Territories. Thus
e in railway mileage in Pennsylvania of 30
234.82 miles; in North Dakota of 195.54

With the exception of the case referred to above, that is to say, the reclassification of railway mileage between Oklahoma and Indian Territory, which reduces the mileage assigned to Indian Territory by 177.64 miles, the cases of decrease in railway mileage are due to abandonment of track. The aggregate net decrease of those States which show a decrease in railway mileage not otherwise accounted for is 153.72 miles. The length of line abandoned during the year is not abnormally great when compared with previous years. It is the failure of certain States to construct the usual amount of new mileage that enables the mileage of abandoned track to cut any figure in the above summary.

The next summary presents a statement of railway mileage, by groups, for the years ending June 30, 1891 to 1894, inclusive.

SUMMARY OF RAILWAY MILEAGE, BY GROUPS.

Territory covered.	Line owned.					Number of miles of line per 100 square miles of territory.[1]	Number of miles of line per 10,000 inhabitants.[2]

Group V	20,818.16	20,190.59	19,838.81	19,503.22	627.57	6.95	21.29
Group VI	40,149.27	39,656.87	38,520.37	37,890.84	492.40	10.78	36.23
Group VII	10,160.29	10,493.09	9,525.27	9,385.23	[4] 332.80	2.46	65.64
Group VIII	21,815.01	21,387.29	21,056.95	20,776.18	427.72	5.97	41.07
Group IX	10,776.60	10,779.37	10,443.04	10,173.07	[3] 2.77	3.32	33.54
Group X	14,261.29	13,685.20	13,228.10	12,878.26	576.09	1.88	56.47
United States..	178,708.55	176,461.07	171,563.52	168,402.74	2,247.48	6.02	26.36

[1] On basis of 2,970,000 square miles, which covers "land surface" only, and excludes Alaska.

[2] On basis of 67,801,571 population, which covers an estimated annual increase of 1,250,000 for 1891, 1892, 1893, and 1894, and excludes Alaska.

[3] Decrease.

[4] Decrease, caused by new group assignment of mileage of Gt. Nn. Ry.

The object of assignment of railway mileage by groups is to permit the localization of railway operations, and in this manner to discover the peculiarities of railway transportation in the various parts of the United States. The basis of the above summary is the reports by carriers of the mileage which they own in the various groups. It will be observed that there is a decrease in the length of line assigned to Group VII and to Group IV. The decrease of 332.80 miles in Group VII is due to the fact that the Great Northern Railway made an extension of its line into Group X, for which no report of operation was filed until the year covered by the present report. The increase in Group V, and the decrease in Group IV is due to a somewhat similar adjustment in mileage.

Total reporting, 1894....	175,690.96	10,499.30	953.16	710.

CLASSIFICATION OF RAILWAYS.

1. Classification of Mileage according to Organization for Operation.
2. Classification of Roads according to Organization for Operation.
3. Classification of Roads according to Organization for Operation, by Groups.
4. Summary of Changes in List of Railways.
5. Classification of Railways on the basis of Operated Mileage.

It is the purpose of the five summaries named above to show the changes which have taken place in the organization of railway property. In the first of these summaries will be found a statement, by groups, of the line owned by the company which operates it; of the line of proprietary companies, that is to say, companies whose entire capital stock is owned by the operating company; of the line operated under lease, by which is meant the payment of a fixed money rental; of the line operated under contract, which includes mileage covered by leases for which the rental paid is contingent upon earnings or some other consideration; and of line operated under trackage rights.

CLASSIFICATION OF MILEAGE ACCORDING TO ORGANIZATION FOR OPERATION.

Territory covered.	Line owned.	Line of proprietary companies.	Line operated under lease.	Line operated under contract, etc.	Line operated under trackage rights.	Total mileage operated (single track).
	Miles.	*Miles.*	*Miles.*	*Miles.*	*Miles.*	
Group I	3,303.16	108.57	3,730.53	122.47	100.26	7,364.99
Group II	9,400.58	1,803.93	5,067.60	2,897.21	786.42	19,955.74
Group III	15,780.58	1,247.92	3,054.98	1,996.47	570.77	22,650.72
Group IV	7,655.79	50.28	2,703.11	318.79	131.91	10,859.88
Group V	14,254.04	2,026.41	1,491.75	419.26	211.47	18,402.93
Group VI	30,589.14	3,688.66	3,952.52	1,594.11	1,259.13	41,083.56
Group VII	8,538.33	186.96	1,032.97	422.21	134.68	10,315.15
Group VIII	17,612.88	2,029.00	1,631.79	.....	676.89	21,950.56
Group IX	8,434.86	1,725.88	32.27	19.63	238.64	10,451.28
Group X	5,372.20	3,020.54	1,884.85	2,302.91	75.65	12,656.15
United States, 1894	120,941.56	15,888.15	24,582.37	10,093.06	4,185.82	175,690.96
United States, 1893	113,987.97	15,281.03	24,608.62	11,782.02	4,120.20	169,779.84
United States, 1892	112,678.69	13,805.94	22,234.47	9,732.37	3,945.83	162,397.30
United States, 1891	108,733.41	14,386.30	26,552.78	7,784.17	3,818.51	161,275.17
United States, 1890	99,931.12	13,926.16	27,723.73	11,578.46	3,244.59	156,404.06

It will be observed from the above statement that the increase in the length of line owned during the year was 6,953.59 miles, which is 1,042.47 miles in excess of the increase of mileage for which reports have been rendered during the year. This might arise from either consolidation or extension on the part of old lines. There has been an increase during the year of the line of proprietary companies of 607.12 miles. On the other hand, there has been a decrease during the year of line operated under money rentals of 26.25 miles, and of line operated under some other form of lease of 1,688.96 miles. These figures do not indicate any

95 miles.

t is not necessary to make special n ntion of
y consolidation reflected in t ove

that it lost its lease of the Lehigh Valley Railroad. In its place the Lehigh Valley appears under its own name. Three roads were added to Class II, the Philadelphia and Reading Railroad, as above stated; the Baltimore and Ohio Southwestern Railway, by virtue of its consolidation with the Ohio and Mississippi Railway; and the Savannah, Florida and Western Railway, by the purchase of the South Florida Railroad. The following six roads disappeared from Class II: The New York, New Haven and Hartford Railroad; the Old Colony Railroad; the Minneapolis and Sault Ste. Marie Railway, as above described; the Milwaukee, Lake Shore and Western, through merger into the Chicago and Northwestern Railway; the Ohio and Mississippi Railway, through consolidation; and the Wisconsin Central Company, through disintegration.

Of Class III roads, that is, those which operate from 400 to 600 miles of line, the Savannah, Florida and Western Railway is transferred to Class II and the Milwaukee and Northern Railway was merged into the Chicago, Milwaukee and St. Paul Railway. The number in this class, however, was kept up by the separation, for reporting, of the Wisconsin Central Company into the Wisconsin Central Company and the Wisconsin Central Railroad.

The class of railways operating from 250 to 400 miles, inclusive, lost during the year, the Baltimore and Ohio Southwestern Railroad by transfer to Class II and the South Florida Railway by consolidation with the Savannah, Florida and Western Railway. It was increased by the addition of the Columbus, Sandusky and Hocking; Jacksonville, St. Augustine and Indian River; and the Calumet and Blue Island railways.

Group X	1,647	32,851	2,018	36,516	2,821	.....
United States, 1894	33,018	1,205,169	39,891	1,278,078	181,664	44,212
United States, 1893	32,911	1,201,273	39,762	1,273,946	154,068	34,270
Increase	107	3,896	129	4,132	27,596	9,942

The total number of locomotives on June 30, 1894, was 35,492, being an increase of 704 over the number in service the previous year. The increase in locomotives of 1893 over 1892 was 1,652; of 1892 over 1891 was 997; of 1891 over 1890 was 1,999. From this it appears that there was a decided decrease in the accustomed rate of increase in locomotives during the last few years.

The total of cars in the railway service on June 30, 1894, was 1,278,078. It is, of course, understood that this figure does not include the cars of companies or private persons furnishing railways with equipment. The business of furnishing rolling stock to railroads or to shippers is a large and continuously increasing business, but under the law it is impossible for this office to secure any official information respecting it. The increase in the number of cars in the railway service on June 30, 1894, over those reported the previous year is 4,132.

The corresponding increase of 1893 over 1892 was 58,854. The falling off in the regular increase in railway equipment is one of the marked features of the present report, and may be accepted as one of the important results of the business depression to which the railway industry, in common with other industries, was subjected. This decrease in equipment early attracted the attention of the office, and led to correspondence to ascertain the cause and nature of the decrease. In almost every instance the correspondence showed that the railway management made the slackness in business the occasion for destroying a larger number than usual of old cars and cars of inferior type. In some cases, while the number of cars had been decreased, the capacity and value of equipment had been increased. One auditor writes that cars which are now going out of service in large numbers are old cars of 12 or 15 tons capacity, and "are being replaced by cars of 30 tons capacity (equipped with automatic couplers and air brakes), so that while the number of cars is largely decreased the tonnage capacity

Assignment of Equipment to Amount of Traff

Territory covered.	Passengers carried per passenger locomotive.	Passenger miles per passenger locomotive.	Tons carried per freight locomotive.	To per loco
I.....	94,277	1,516,104	44,109	3,
II.....	75,189	1,412,084	42,826	4
III.....	40,966	1,723,007	41,671	4,
IV.....	28,538	1,146,781	24,717	4,
V.....	22,678		31,731	3
VI.....	51,704	1	24,642	3,
VII.....	14,718	-		

The first of the above summaries shows the density of rolling equipment. No change appears so far as locomotives are concerned, but on account of the fact that disabled cars and cars of old types were consigned to the scrap heap rather than to the repair shops, there appears a net decrease of 22 cars per 100 miles of line for cars in freight service. Cars in passenger service and cars in company's service show no change.

By comparing the assignment of cars, by groups, in the above summary with the corresponding summary in the previous report it appears that decrease in rolling stock is quite general and uniform throughout the entire country, the only groups in which there was no decrease being Group I and Group VII.

The decrease in traffic during the year covered by the report is responsible for the decrease in railway efficiency, as shown in the second of the above summaries. The number of passengers carried per passenger locomotive shows a decrease of 6,557 in 1894 under 1893. From other statistics it is known that passenger trains were taken off and passenger mileage reduced. In the case of passenger miles per passenger locomotive there has been a decrease of 22,971. The most marked decrease, however, is observed in the case of tonnage, the number of tons carried per freight locomotive being 6,101 less in 1894 than in 1893, while the ton miles per freight locomotive were 757,418 less. The number of passenger cars per 1,000,000 passengers carried shows a decrease of 2 as compared with the previous year, but the number of freight cars per 1,000,000 tons of freight carried was 276 greater in 1894 than in 1893.

The interest universally felt in the extent to which railway equipment is fitted with automatic couplers and train brakes is as strong as ever, and on that account a series of tables pertaining to this matter, similar to the tables which have appeared in previous reports, are inserted.

SUMMARY OF EQUIPMENT FITTED WITH TRAIN BRAKE—LOCOMOTIVES.

Summary of Equipment Fitted with Automatic

Territory covered.	Passenger service.	Freight service.	Company's service.	T s

The comparisons in the above tables are confined to the totals of locomotives and the totals of cars. The change in the form for annual report of carriers referred to above does not permit of a comparison between the several classes of locomotives and cars. The increases in equipment, together with the increase in equipment fitted with train brakes and automatic couplers, for the years 1889 to 1894, inclusive, are presented in the following summary:

COMPARATIVE STATEMENT OF EQUIPMENT, AND OF EQUIPMENT FITTED WITH TRAIN BRAKE AND AUTOMATIC COUPLER, FOR THE YEARS ENDING JUNE 30, 1894, 1893, 1892, 1891, 1890, AND 1889.

Year.	Total equipment.	Increase.	Equipment fitted with train brake.	Increase.	Equipment fitted with automatic coupler.	Increase.
1894	1,313,570	4,836	330,992	31,965	357,621	35,383
1893	1,308,734	60,506	299,027	42,158	322,238	77,904
1892	1,248,228	27,139	256,869	68,537	244,334	75,299
1891	1,221,089	21,282	188,332	39,505	169,035	53,716
1890	1,199,807	101,205	148,827	20,668	115,319	34,809
1889	1,098,602	.....	128,159	.....	80,510	.....

The significant fact of the above summary is that while the equipment in 1894, as compared with 1893, shows an increase of 4,836, the increase in equipment furnished with train brakes during the same period was 31,965, while the increase in equipment furnished with automatic couplers was 35,383. The gain, therefore, in equipment fitted with train brakes during the year was 27,129, and the gain in the equipment fitted with automatic couplers was 30,547. When it is considered that the total equipment on June 30, 1894, was 1,313,570, it is easy to see that greater attention must be given to this matter in the future than in the past, if the railways purpose to comply with the law of March, 1893, which requires all equipment to be fitted with train brakes and automatic couplers by January, 1898. By comparing the advance made during the year covered by this report with that of previous years, no decided tendency toward compliance with the law can be observed.

The act referred to also requires that all cars shall be provided with grab-irons or hand-holds and drawbars of a standard height by July 1, 1895.

As in the case of previous reports, and for the information of those who may care to make use of the facts, there will be found in the following tables a statement, by groups, of the kind of train brakes and automatic couplers used, and of the classes of cars fitted with these devices. No attempt is made to classify couplers by types.

STRIBUTION OF EMPLOYEES FOR THE YEAR ENDING

tory covered.	General administration		Maintenance of way and structures.		Maintenance of equipment	
	Number	Per 100 miles of line.	Number.	Per 100 miles of line.	Number.	Per 100 miles of line.

This office has never before been called upon to report a decrease in the number of railway employees, but it appears from the above figures that on June 30, 1894, there were in the employ of railways 779,608 persons, as against 873,602 persons in 1893. This shows a decrease of 93,994. It is necessary to go back to the year 1890, when the number of railway employees was 749,301, to find a pay roll as limited as that of 1894. This reduction is, of course, one of the results of business depression and of the consequent necessity of economy on the part of the railways.

It is interesting to notice in what part of the country the reduction in railway employees is most marked, a fact which may be learned from the second of the above summaries. In one group only, that is to say, in Group X, has there been an increase in the number of persons employed, and this is doubtless due to the fact that the Great Northern Railway put into operation nearly 300 miles of line not included in the previous report.

The greatest aggregate decrease is found in Group III and Group VI, the former having thrown 20,680 persons out of employment during the year, a decrease of the pay rolls of 14.99 per cent; while the latter threw 26,168 persons out of employment, a decrease of 15.36 per cent. This is perhaps explained by the fact that the railways of these two groups received a greater stimulus from the unusual passenger traffic occasioned by the Columbian Exposition than any other groups, and the reduction of their pay rolls consists in part of the reduction of temporary employees. The railways in Group II reduced their employees by 15,450, but so large is the number normally employed that this is equal to the percentage reduction of 6.89 per cent only. By reference to the last two lines of the above summary it becomes apparent that the reduction in railway employees is universal and widespread, with the exception of the railways on the Pacific Slope, and in this case, if the explanation given above be accepted, the exception is but apparent. It is also beyond question that this reduction, a slight allowance being made for the decreased passenger business in Groups III and VI, due to the decline of excursion traffic, is the result of an endeavor on the part of the railways to curtail operating expenses.

Another fact of interest in connection with the reduction of railway employees pertains to the classes of employees in which the reduction takes place. This may be learned from the third of the above summaries. So far as the total number of employees in the United States is concerned, the facts are presented in such a manner as to permit a comparison with the previous year. From this it is observed that there has been a decrease per 100 miles of line in employees assigned to general administration of 14.29 per cent; in employees assigned to maintenance of way and structures of 18.54 per cent; in employees assigned to maintenance of equipment of 16.50 per cent; and in employees assigned to conducting transportation of 11.11 per cent. The reduction has

less too high for railway employees. If 4 p
be accepted, it shows that the number of p
regular income on account of the depressic
business during the year ending June 30, 189

ngaged in the construction of new lines. T
ot the ba for computing average compensat
or any cl s of employ s is determined by
mount of v ly com

how many days of the year individual workmen were in receipt of wages.

Among the difficulties encountered in the compilation may be mentioned the fact that there are several methods of estimating compensation in the case of enginemen, firemen, and conductors. Some are paid by the trip, others on a mileage basis, others by the day, although certain roads which accept a day's work as the basis of payment estimate the day by a certain amount of work done rather than by the time expended. It is believed, however, that the results, so far as average compensation is concerned, are about the same whatever the computation may be.

Another uncertainty arises on account of the fact that no rules as yet have been laid down respecting the classification of employees. There is no guaranty that all carriers include exactly the same sets of workers under the classes named. In the case of machinists, for example, are apprentices included or not? The rule adopted, so far as this office has had occasion to enter into correspondence on this question, is that all assignments to the classes named should conform to a strict interpretation of the word chosen to designate the class. This of course results in increasing the number assigned to "All other employees and laborers," but it guarantees the integrity of the figures for the few classes that are definitely named.

COMPARATIVE SUMMARY OF AVERAGE DAILY COMPENSATION OF RAILWAY EMPLOYEES FOR THE YEARS ENDING JUNE 30, 1894, 1893, AND 1892.

Referring to the averages for the entire year, it appears that the only class of employees which received compensation in excess of $3 per day are enginemen and conductors. General office clerks, firemen, machinists, and carpenters received between $2 and $3 per day; all other employees were in receipt of a compensation less than $2 per day. In the case of employees assigned to the operation of floating equipment the averages presented in the above table are somewhat misleading, inasmuch as there is here no attempt at classification between skilled and unskilled labor.

It may be an occasion of surprise that the commercial depression of the year 1894 did not cause a more marked decrease in the average compensation of employees. This is doubtless explained by the decrease in the number of men employed. The saving in the pay roll was achieved by the reduction in employees rather than the reduction in wages. So far as the movement for the three years covered by the compilation is concerned, it appears that in most cases the average rate of compensation was higher in 1893 than in 1892, and, although the year 1894 shows a decrease, it still remains higher in some groups, for quite a number of classes, than in 1892. A comparison of the rates of compensation in the various sections is interesting. It is a safe rule for a statistician to follow to refrain from any extended generalization on the basis of a single experiment. There is no doubt but the averages in the above summaries are more trustworthy, both as to the source from which they are drawn and the method of their compilation, than any figures of wages for railway employees yet published. And so great is the interest of such figures for the public, and so important is it that all facts which touch the question of wages should be absolutely accurate, that a correspondence has been entered into between this office and the carriers respecting a more perfect classification of employees and a more satisfactory rule for reducing the compensation of enginemen and firemen, and all whose pay is based on some other consideration than the time employed in labor, than the classification now provided by the form for annual report and the rules now followed by the carriers in the various parts of the country. It is expected to include summaries of compensation in all subsequent reports.

CAPITALIZATION AND VALUATION OF RAILWAY PROPERTY.

1. Summary of Railway Capital, by Groups.
2. Ownership of Railway Capital.
3. Stocks and Bonds Owned by Railways, by Groups.
4. Classification of Railway Capital by Rate of Dividend or Interest.
5. Charges against Income on Account of Railway Capital.

Practically the same situation exists, so far as the capitalization and valuation of railway property is concerned, as in previous years. As already remarked, the tendency toward consolidation, merger, and absorption has been about as strong as in previous years. The returns

Group X	54,559,935	5.25	4,332	1,038,620,083	9.62	82,558
United States	605,815,135	5.61	3,532	10,796,473,813	100	62,951

There has been one slight change in the classification of funded debt. Previous reports have included "real estate mortgages" under "Miscellaneous obligations," while in the present report such obligations are carried direct to the Balance Sheet as an independent item. Under "Miscellaneous obligations" are now included those funded obligations which are understood to be liens on specific property, and on this account distinguished from liens on a road and its franchises. A definition of income bonds and equipment trust obligations will be found on page 58 of the Fourth Annual Report on the Statistics of Railways.

The total railway capital on June 30, 1894, was $10,796,473,813. This amount in the aggregate is a slight increase over the railway capital of the previous year. The amount of capital per mile of line, however, has decreased, it being $62,951 per mile of line in 1894, as against $63,421 in 1893. A comparison of the funded debt for the two years in question shows an increase in mortgage bonds, miscellaneous obligations, and equipment trust obligations, but a decrease in income bonds. The total of funded debt on June 30, 1894, was $5,356,583,019, as against $5,225,689,821 the previous year. The funded debt per mile of line, however, has decreased from $31,545 in 1893 to $31,233 in 1894. This, of course, indicates, among other things, that the mileage which appears for the first time in the present report is not so heavily bonded as is the average railway of the country. The aggregate of stocks on June 30, 1894, was $4,834,075,659, as against $4,668,935,418 the previous year. The amount of stock per mile of line was $28,186 in 1894, against $28,184 in 1893. On the whole, the changes in railway capital have been relatively slight during the year covered by the report.

In the next table will be found a statement of the amount of railway capital owned by railways in their corporate capacity, for the years 1889 to 1894, inclusive.

Increase of 1893 over 1892	237, 638, 824
Increase of 1892 over 1891	403, 409, 054
Increase of 1891 over 1890	[1] 1, 309, 340
Increase of 1890 over 1889	14, 861, 464

n view of the fact that the year ending June
year of commercial depression, the decrease in
ing dividends, or in the amount of dividends p
very great, nor does there seem to be any ma
paid on dividend-paying stock. The only yea
in which the average rate on dividend-payin
894 was that of 1893. So far as dividends are
impossible to discover the influence of comme
above stock paying no dividends be localized
compared with analogous staten ats of

SUMMARY SHOWING THE PER CENT OF CAPITAL STOCK PAYING NO DIVIDENDS, FOR THE YEARS ENDING JUNE 30, 1894, 1893, 1892, 1891, AND 1890, BY GROUPS.

Territory covered.	1894.	1893.	1892.	1891.	1890.
Group I	21.48	21.97	23.43	23.16	24.58
Group II	45.56	45.45	43.03	44.57	47.27
Group III	62.16	52.66	52.80	55.92	63.56
Group IV	89.24	67.40	69.40	73.02	70.84
Group V	85.12	69.44	59.96	66.90	67.02
Group VI	54.37	52.77	58.72	57.35	63.94
Group VII	66.37	66.50	64.24	62.39	63.68
Group VIII	87.91	87.72	83.75	69.98	72.90
Group IX	97.84	99.99	99.98	99.99	99.99
Group X	69.01	80.70	78.93	78.84	83.54
United States	63.43	61.24	60.60	59.64	63.76

Groups IV and V include that portion of the United States lying south of the Ohio and Potomac rivers, and east of the Mississippi River. By referring to the above summary it appears that 89.24 per cent of stock assigned to Group IV paid no dividend in 1894, as against 67.40 per cent in 1893, and that 85.12 per cent of stock assigned to Group V paid no dividend in 1894, as against 69.44 per cent in 1893. Before interpreting this fact, one should consider whether the roads paying dividends in this district in 1893 paid them from earnings or from borrowed money. The only other group which shows a marked increase in the amount of stock paying no dividend is Group III. The railways in Group IX decreased slightly the amount of stock paying no dividend, while in Group X the decrease is very marked. Thus, for this group, the stock paying no dividend in 1893 was 80.70 per cent of the total, while in 1894 it was 69.01 per cent of the total. The chief interest in these facts appears when taken in connection with the earnings of the railways of the several groups in question. A decrease in the amount of dividends paid during a year of depression may be a mark of conservative financial management.

In the summaries which follow will be found a classification by territorial groups of the stocks and funded debt, classified by rate of dividend or interest paid.

In the next summary will be found a statement of the charges against income on account of railway capital during the year ending June 30, 1894. It shows dividends by groups, the dividends on common and preferred stock, the interest on funded debt and interest-bearing current liabilities, the total charges against income, and other payments from net income.

PUBLIC SERVICE OF RAILWAYS.

1. Comparative Summary of Passenger and Freight Service for the Years ending June 30, 1894, 1893, 1892, and 1891.
2. Public Service of Railways, by Groups—Passenger Service.
3. Public Service of Railways, by Groups—Freight Service.

The important feature of the statistics of public service of railways during the year ending June 30, 1894, is found in the marked decrease of service rendered as compared with previous years. This might have been expected on account of the general commercial depression of the year in question.

In the first summary will be found a series of statements for the years 1891 to 1894, inclusive, respecting passenger traffic and freight traffic.

The significant figures in the above table are
which shows the increase and decrease of t
Passenger service, as measured by the numb
fell off from 593,560,612 to 540,688,199, being

groups which show an increase in passenger m
Group III and Group VI; that is to say,
to the east, and the other to the west of C
ger mileage for Group III was 372,172

It is natural that commercial depression should affect freight service more than the passenger service, and by referring to the fourth, fifth, and sixth items in the above summary, it appears that there was a decrease in freight service during the year ending June 30, 1894, as compared with the previous year, of 106,932,929 tons; a decrease of 13,253,007,131 tons carried one mile, and a decrease of 93,980 tons carried one mile per mile of line. A decrease of 17.05 per cent in the density of traffic can not occur without serious disturbance in the financial condition of the carriers. The average revenue per ton per mile during the year covered by the report was .860 cent, from which it appears that the carriers suffered a decrease of freight revenue of $113,975,861 on account of the decrease in traffic. The aggregate decrease in freight revenue of $129,562,948, shown in the summary of earnings on page 59, is accounted for by adding to this loss the decrease in earnings resulting from the decrease in freight rates. This is an amount in excess of dividends paid during any year since the establishment of this office.

So far as passenger traffic is concerned the figures in the above summary show that the railway managements have endeavored to economize somewhat in this service. This they have done by decreasing the passenger service, the passenger train mileage being less in 1894 than in 1893 by 9,115,551 miles. The average number of passengers in a train for the three years from 1891 to 1893, inclusive, was 42, but on account of decrease in passenger service was raised in 1894 to 44. The decrease in freight-train mileage for the year covered by the report was 61,912,283, but notwithstanding this, so great was the decrease in freight traffic that the average number of tons in a train fell from 183.97 to 179.80. The tendency toward an increase in the average haul per ton, which has been constant during a series of years, has not been arrested, although, as may be observed, the increase is very small. No figures could show the effect of commercial depression more graphically.

The classes of facts presented in the above summary for the entire United States are classified by territorial groups in the two statements now presented. Should one desire to localize the commercial effect of business depression, it can be done by comparing the decrease in these statements with the corresponding figures in previous reports.

EARNINGS AND EXPENSE

1. Condensed Income Account.

a. Comparative Condensed Income Ac
1891, by Totals.

b. Comparative Condensed Inco[illegible]

The foregoing statements relative to the decrease in railway service for the year ending June 30, 1894, would lead one to expect a corresponding decrease in the earnings and expenses of railways, and the extent to which the commercial depression has embarrassed the financial management of the carriers will be made apparent by the summaries which now claim attention. The first of these is a condensed income account, made comparative for the years ending June 30, 1891, to 1894, inclusive. It must be remembered in making use of the figures in this condensed income account, that they include returns from both subsidiary and operating roads. While this in no way affects the final results, it does somewhat increase the two items, income from other sources, and total deductions from income; that is to say, a sum of money which an operating road pays as rental and which appears on its income account as a fixed charge, will appear on the income account of the subsidiary line to which the rental is paid as an income under the head of income from lease of road.

	Amount.	Per mile of line operated.	Amount.	Per mile of line operated.	Amount.	Per mile of line operated.
Gross earnings from operation	$87,731,705	$3,997	$41,524,703	$3,973	$57,153,475	$4,516
Less operating expenses	63,156,524	2,877	31,754,092	3,038	38,825,403	3,068
Income from operation	24,575,271	1,120	9,770,811	935	18,328,072	1,448
Income from other sources	7,231,892	329	4,182,490	400	24,044,967	1,900
Total income	31,809,163	1,449	13,953,301	1,335	42,373,039	3,348
Total deductions from income	37,859,190	1,724	17,860,094	1,709	44,679,218	3,530
Net income	[1] 6,050,027	[1] 275	3,907,303	[1] 374	2,306,179	[1] 182
Total dividends (including [2] other payments from net income)	2,147,083	98	253,935	24	[1] 6,311,667	507
Surplus from operations	3,177,710	[1] 373	[1] 4,161,328	398	[1] 8,717,836	[1] 689

[1] Deficit.

[2] Includes $1,580,089, "other payments from net income."

Several interesting facts appear by a study of the above summary. In the first place, the dividends paid exceed the income of the year available for payment of dividends in the case of every group, with the exception of Group VI.

In the case of Group IV, Group VII, Group VIII, Group IX, and Group X the fixed charges were greater than the net income from operations, and income from investments, which means that in place of the final net income available for paying dividends, the operations for the year show a deficit. In every case, however, some dividends were paid, showing that the railways in these groups incurred indebtedness for the payment of dividends as well as for the payment of fixed charges.

A comparison of the above summary with the corresponding summary in the previous reports shows a decrease in the gross earnings per mile of line in every group. These decreases are for the several groups as follows: Group I, 9.26 per cent; Group II, 14.88 per cent; Group III, 16.89 per cent; Group IV, 9.30 per cent; Group V, 13.24 per cent; Group VI, 14.41 per cent; Group VII, 21.22 per cent; Group VIII, 20.76 per cent; Group IX, 3.52 per cent; Group X, 17.90 per cent. This shows the decrease in earnings to be universal, though not uniform in the various parts of the country.

For the purpose of showing the decrease in the several items of earnings and income, which, as shown in the previous summary, aggregate $147,390,077, the statement now inserted is made comparative, and presents the amount of passenger revenue, mail, express, freight revenue, and other earnings from operation, as well as income from other sources, for the two years ending June 30, 1894 and 1893.

COMPARATIVE SUMMARY OF EARNINGS AND INCOME AND ANALYSIS OF EARNINGS FROM OPERATION, FOR THE YEARS ENDING JUNE 30, 1894 AND 1893.

[5] Covers four roads making no classification of "earnings" under the several heads.

Passenger revenue during the year covered by the report is $285,349,558, being a decrease of $16,142,258. The decrease in passenger revenue, notwithstanding the increase in passenger mileage, is due to the reduction in revenue per passenger per mile from 2.108 cents in 1893 to 1.986 cents in 1894. Payments for carrying the mail increased from $28,445,053 to $30,059,657. Payments for carrying the express decreased from $23,631,394 to $23,035,300. The great decrease in railway earnings, as already remarked, is in freight revenue, the earnings from freight revenue in 1894 being $699,490,913, as against $829,053,861 in 1893, showing a decrease in freight revenue of $129,562,948. This is a decrease of 15.63 per cent. The total of earnings and income for 1894 was $1,216,178,602, which is a sum greater than the aggregate expenditures of all governments of all grades in the United States. The corresponding figure for the previous year was, however, even greater, it being $1,370,401,489, which shows that the railways had $154,222,887 less money with which to carry on their operations in 1894 than in 1893.

The earnings and income of railways for the year ending June 30, 1894, are presented in the following summary, by territorial groups:

SUMMARY OF EARNINGS AND INCOME AND ANALYSIS OF EARNINGS FROM OPERATION, BY GROUPS.

The condensed income account shows income from property and investments for the year ending June 30, 1894, to have been $142,816,805. The following statement analyzes this sum, showing the amount which arises from dividends on stocks, interest on bonds, rentals on property, and from miscellaneous investments. The facts are presented by territorial groups, and so far as total income is concerned are made comparative by inserting the corresponding figures for 1893.

SUMMARY OF INCOME FROM OTHER SOURCES, BY GROUPS.

Territory covered.	Stocks.	Bonds.	Rentals.	Miscellaneous.	Total 1894.	Total 1893.	Decrease, 1894 under 1893.
Group I	$342,634	$97,[illegible]0	$8,[illegible]2,559	$486,227	$8,959,[illegible]1	$9,257,702	[1] $681,281

Total expenditures, all roads	49,614,786			83,504,621		

From the above statement it appears that the amount expended for the year ending June 30, 1894, for the maintenance of way and structures was $143,669,386, a decrease, as compared with 1893, of $25,588,990, which is equivalent to a percentage decrease of 15.12 per cent. The expenditure for maintenance of equipment was $112,894,526, which shows, as compared with the previous year, a decrease of $23,981,383, a decrease of 17.52 per cent. The amount expended for conducting transportation during the year was $394,513,035, a decrease of $40,952,540 as compared with the previous year, a decrease equal to 9.40 per cent. The amount charged to the account of general expenses was

$79,771,497, which shows a decrease of $5,777,340, a decrease of 6.76 per cent. It will be observed that the decrease in operating expenses occasions a somewhat different distribution between the four great accounts. In 1893 the percentage of operating expenses assigned to maintenance of way and structures was 20.45 per cent; in 1894 it was 19.64 per cent; for maintenance of equipment in 1893 the percentage of expenditure was 16.53 per cent, as against 15.43 per cent in 1894; in conducting transportation for 1893 the percentage of operating expenses was 52.60 per cent, as against 53.94 per cent in 1894; in general expenses in 1893 the percentage of expenses was 10.33 per cent, as compared with 10.91 per cent in 1894. This indicates in another manner that relatively greater saving was obtained in maintenance of structure and equipment than in conducting transportation or in the general management of the business. It is worth noting also that the aggregate decrease in operating expenses during the year covered by the report, which amounted to $96,506,977, is just about equivalent to the amount paid in dividends.

In the summary next inserted will be found a statement of expenditures and an analysis of fixed charges by territorial groups. The items included in fixed charges are indicated by the headings of the several columns.

The bold faced type which appears in these summaries indicates the charges of subsidiary companies not maintaining operating accounts. The aggregate of these figures indicate the extent to which duplication exists in the consolidated income account. Thus, it appears that income to the extent of $70,681,383, which appears on the books of operated companies as fixed charges, and which goes to the support of the capital of such companies, is received in the form of rental or some other like payment from the operating companies. The true aggregate of fixed charges which the public is obliged to support in the payment for railway facilities is $358,326,927, and not $429,008,310, which is the bookkeeping aggregate according to the condition of railway accounts.

[1] Less than .01 per cent.

By comparison with the corresponding table, which appears on page 62 of last year's report, certain significant changes are to be observed. Thus, the per cent of earnings from passenger service to total earnings during the year ending June 30, 1894, is 32.11 per cent, as against 29.49 per cent of the previous year, while the proportion of earnings from freight service during the year covered by this report to total earnings is 65.49 per cent, as against 68.23 per cent the previous year. The increased passenger traffic on account of the Columbian Exposition, as well as the decreased freight traffic on account of business depression, is reflected in these percentages. Thus, the per cent of passenger earnings to total earnings in Groups III and VI during the year ending June 30, 1894, was 35.69 per cent and 31.05 per cent, respectively, as against 29.71 per cent for Group III, and 27.37 per cent for Group VI during the previous year.

The coefficient of expenses, that is to say, the percentage of operating expenses to operating income, as shown in the above summary, was 68.14 per cent. By referring to the last item in the summary on the opposite page one may learn the corresponding percentage for the five previous years, and it is significant to notice that the proportion of operating expenses to operating income has increased steadily since 1890. This tendency, when taken in connection with the fact that operating expenses do not increase in proportion to increase in volume of traffic, may be accepted as measuring the strength of the forces which, during the last few years, have depressed railway charges.

GENERAL BALANCE SHEET.

The General Balance Sheet of the railways of the United States for the year ending June 30, 1894, is made up on the basis of 164,008.71 miles of line. In the first column is shown the aggregate amount for the items named. In the second and third columns will be found the increase or decrease in these several amounts resulting from the operations of the year.

GENERAL BALANCE SHEET FOR THE YEAR ENDING JUNE 30, 1894.

E.—DECREASE IN ASSETS.—1894.

Item.	Amount of decrease.
Stocks owned	$6,986,188
Bonds owned	108,225
Cash and current assets	44,402,673
Materials and supplies	13,988,383

NOTE.—The mileage represented by the operating figures in this summary is as follows: 1894, 175,690.96 miles; 1893, 169,779.84 miles; 1892, 162,397.30 miles; 1891, 161,275.17 miles; and 1890, 156,404.06 miles.

Comment upon the facts in the above summary would be superfluous. Railway construction was arrested, development of railway equipment was nearly stationary, railway employees were reduced, and that after a series of years which showed an average annual increase in the pay roll of 42,215 employees.

The density of passenger traffic and freight traffic, after having experienced a progressive development for a series of years, was subjected to a marked decrease, the number of tons carried one mile per mile of line showing a decrease in 1894 of 93,980, as against an average annual increase for the four years 1890 to 1893, inclusive, of 25,791. Passenger train mileage shows a decrease of 9,115,551, as compared

...was found necessary to reduce the

The number of railway employees killed during the year covered by the report was 1,823 and the number injured was 23,422. As compared with the previous year this shows a decrease in fatal casualties to employees of 904 and a decrease of injuries of 8,307. The first explanation of this marked decrease in casualties to employees which occurs is that the number of employees on June 30 of the year covered by the report is 93,994 less than on the corresponding date of the previous year, so that the number of men exposed to accidents is less. While this may be accepted as a partial explanation of the decrease in casualties it is not satisfactory, inasmuch as the decrease in the pay roll was but 10.76 per cent.

Another explanation may be suggested for this decrease in casualties to railway employees. The character of equipment used during the year covered by this report was undoubtedly of a higher grade than in previous years. A large number of old cars of abandoned type were destroyed during the year, while there was an increase in the better grades of cars equipped with train brakes and automatic couplers. This, however, is a suggestion merely, there being no statistical proof of any relation between a higher grade equipment and the decrease of accidents to employees. It is also probable, in view of the fact that liability to accident is increased by the employment of the shiftless and unskilled, that the grade of labor was raised through the discharge of so large a number of employees. This latter suggestion finds support in the fact that the ratio of casualties in the Southern States, where the grade of labor is somewhat inferior, has for a series of years been higher than in the Northern and Eastern States.

The number of passengers killed during the year was 324 and the number injured was 3,034, being an increase in the number killed over the previous year of 25, but a decrease in the number injured of 195. As compared with the previous years, however, and when considered in connection with the character of passenger traffic covered by the report, it can not be said that the increase in the number of passengers killed indicates greater liability to accident for normal passenger travel. The passenger mileage in 1894 was 14,289,445,8 3 as against 14,229,-101,084 in 1893, being an increase of 60,344,809 an increase in the

Number not trespassing injured	50	174	17	47	34	40

The figures of the above summary, compared with the corresponding summary in previous reports, are quite interesting. Referring to the statistics of accidents for the entire country, it appears that the number of employees for one employee killed during the year covered by the report was 428, as against 320 the previous year. The number of trainmen employed for one killed during the year was 156, as against 115 in the report of the previous year. This is a marked improvement, and if, as suggested, it is due to the use of better cars and the employment of a higher grade of labor, the improvement should be permanent. The number of passengers carried for one passenger killed in 1894 was 1,668,791, as against 1,985,153 in the previous year. The number of passengers carried one mile for one killed was 44,103,228, as against 47,588,966 the previous year. The explanation of this increase in liability to casualty to which passenger traffic is exposed has already been referred to.

The following summaries, which are introduced without comment, are a more detailed statement of the facts already presented. By referring to them will be found a classification, by groups, of casualties sustained by employees on account of the various classes of accidents. A similar statement is also presented for passenger traffic, showing, by groups, the number of casualties, the result of the various classes of accidents to which passengers are exposed. These statements are followed by a more detailed classification, by groups, of accidents to employees, showing separately the number of casualties to trainmen, switchmen, flagmen, and watchmen, and to other employees, which are the result of the various kinds of accidents named. The final statement presents, by groups, the number of casualties, sustained by persons not passengers and not employees, arising from the various kinds of accidents. They are reported as casualties sustained by those "Trespassing" upon railway property and those "Not trespassing."

RECOMMENDATIONS.

The recommendations contained in previous reports with a view to making the statistical division of the Interstate Commerce Commission more complete, and therefore more useful, may with propriety be repeated. They are as follows:

First. That the express companies engaged in interstate traffic be required to make report to the Interstate Commerce Commission similar to reports now required of carriers by rail.

Second. That all corporations, companies, or persons owning rolling stock which is used in interstate commerce, as also all corporations, companies, and persons owning depot property, stock yards, elevators, and the like, used by the carriers for interstate traffic, should be required to make appropriate reports to the Interstate Commerce Commission.

Third. That carriers by water, so far at least as their business influences in any important degree the interstate traffic carried on by the railways of the country, shall be required to make appropriate reports to the Interstate Commerce Commission.

CONCLUSION.

Reference was made in the previous report, page 81, to the revised classification of operating expenses which the Commission adopted as an official classification. A large number of the railways of the country have undertaken a reorganization of their accounts so that the books which they keep may conform to this official classification. In the course of the reorganization quite a number of requests have been presented for an interpretation or a more detailed explanation of certain clauses in the classification. It was thought this might be the case, and on this account a committee was appointed by the Association of American Railway Accounting Officers to cooperate with your Statistician for the answer of such questions. A Bulletin of these questions and of the replies thereto has been issued. It will be found attached to the text of this report as Appendix I.

There has been worked out during the year a series of diagrams for the purpose of showing certain leading facts with regard to railway transportation since the organization of this office. These diagrams are nine in number and are adequately explained by their titles, which are as follows:

1. Railway Capital—Showing Amount assignable to Capital Stock, Funded Debt, and Current Liabilities.

2. Capital Stock—Showing Proportion not paying Dividends and Proportion paying Dividends.

3. Funded Debt, Exclusive of Equipment Trust Obligations—Showing Proportion not paying Interest and Proportion paying Interest.

4. Earnings and Income—Showing Amount of Passenger, Freight, and Gross Earnings, and Income from Other Sources.

5. Charges against Earnings and Income—Showing Amount assignable to Operating Expenses, Fixed Charges, and to Dividends and other Payments.

6. Density of Passenger Traffic.

7. Density of Freight Traffic.

8. Average Receipts per Passenger per Mile and per Ton per Mile.

9. Equipment—Showing Proportions Fitted and Not Fitted with Train Brake and Automatic Coupler.

The diagrams, together with explanatory notes, will be found attached to the text of this report as Appendix II.

Reference was also made in last year's report to the suggestion that the carriers be called upon to make a statement of freight earnings by freight classes. It was recognized that the unit of revenue which is now obtained, that is to say, the receipts per ton per mile, is not sufficiently definite. Considerable attention has been given to this question during the year, and a number of consultations have been held with the railway accounting officers respecting it. So great, however, is the divergence in estimates of the expense attending such a classification, and in view of the fact that the railways are at present suffering from severe financial depression, it was thought wise by the committee appointed by the Convention of Railroad Commissioners having this matter in charge, to delay for the present their decision as to the wisdom of calling for a classified statement of freight earnings. It is hoped that this matter will again be taken up when the country shall have recovered from its present business depression. The necessity of some such classification is great. As well might one undertake to judge of the social results of a special tax, knowing only the aggregate income from the entire taxing system, as to determine the influence of the charges imposed on any specific class of freight when the aggregate revenue from all freight is the only item of freight revenue known. The assertion is ventured that reasonable charges will never be arrived at except on the basis of statistical information, and if this be true, no amount of money should be considered as excessive to secure the necessary statistics.

The work of the Division of Statistics has been somewhat greater than in previous years, on account of the increased mileage covered by reports from carriers. Considerable delay in the compilation was occasioned by the failure of certain carriers to file their reports with the Commission by September 15, the date on which all reports should be filed. The fact that so many roads were in the hands of receivers also caused the work in this Division some unusual embarrassments.

The number of letters and telegrams forwarded in connection with the preparation of this report was 3,884. The majority of these letters were necessary on account of inaccuracies and discrepancies in the reports filed. The number of letters and telegrams received were 4,184. In addition to the above correspondence there were forwarded

from the office 2,700 circulars, many of which were in regard to remissness of the railways in filing reports, 4,100 annual report forms, 2,200 copies of the revised classification of operating expenses, and 1,200 copies of a form calling for the mileage of new roads. A State edition of annual report forms was also prepared, on requisition from several States that have adopted the Interstate Annual Report Form. The volume of correspondence necessary in connection with the report shows an increase over that of the previous year. This increase is accounted for by the fact that there was an increase of 12 per cent in the number of reports filed. It seems proper to call attention to the fact that this increased number of reports and consequent increase in work was handled without any increase in office force, and the time consumed in the preparation of the report somewhat reduced.

It is appropriate that special mention be made of Mr. Stephen C. Mason, Assistant Statistician, to whose judicious management the success of the work of this Division is largely due.

HENRY C. ADAMS,
Statistician to the Interstate Commerce Commission.

APPENDIX I.

DECISIONS UPON QUESTIONS

RAISED UNDER THE

CLASSIFICATION OF OPERATING EXPENSES.

LETTER OF THE STATISTICIAN.

INTERSTATE COMMERCE COMMISSION,
DIVISION OF STATISTICS,
Washington, D. C., May 1, 1895.

For the information of carriers who are reorganizing their operating accounts in conformity with the requirements of the revised "Classification of operating expenses," taking effect July 1, 1894, or who propose in the future to enter upon such reorganization, the following decisions of the committee appointed by the Association of American Railway Accounting Officers upon such questions of classification as have been submitted to them are herewith presented. The committee is composed of M. Riebenack, Assistant Comptroller of the Pennsylvania Railroad; D. A. Waterman, Treasurer of the Michigan Central Railroad; and Erastus Young, Auditor of the Union Pacific Railway. These decisions, which have been approved by the Statistician of the Interstate Commerce Commission, may be accepted as supplemental to or explanatory of the "Classification of operating expenses," and as issued upon the authority of the Commission.

HENRY C. ADAMS, *Statistician.*

QUESTIONS AND DECISIONS.

CASE 1.

Query. To what account should the wages of engineers and firemen operating stationary engines in shops be charged?

Answer. This expense should be apportioned between the different maintenance accounts on basis of relative amount of work done for the account of each.

CASE 2.

Query. To what account should be charged wages, board, and expenses of non-employees, witnesses in "Loss and damage" and "Injuries to persons" cases?

Answer. Wages, board, and expenses of non-employees engaged as witnesses in the settlement of "Loss and damage" and "Injuries to persons" suits are properly chargeable to Conducting Transportation, account No. 35, "Loss and damage," or to account No. 36, "Injuries to persons," as the case may be.

Answer. The salary of Assistant General Counsel (whatever the title of the assistant to the head of the law department) is chargeable to General Expenses, account No. 47, "General Counsel."

CASE 5.

Query. Is it not proper that salaries of clerks in the law department under the direct charge of the General Counsel should be charged to General Expenses, account No. 48, "Salaries of clerks and attendants"?

Answer. Salaries of clerks and attendants in the law department of the General Counsel and Assistant General Counsel should be charged to General Expenses, account No. 48, "Salaries of clerks and attendants."

CASE 6.

Query. As to manner of treating expenses of sleeping cars operated by a railroad company?

Answer. Expenses of parlor and sleeping cars should be handled in the same manner as those of an ordinary passenger car. Operating expenses should be kept in a separate account, showing the earnings and expenses, any profits to miscellaneous earnings, and charging any losses to Transportation, account No. 27, "Fuel, supplies and expenses."

CASE 7.

Query. The A and B railway uses jointly with the C railway a certain track, the former paying for the privilege on basis of various agreements. Clerks, etc., are joint employees of the two roads, and are paid by A, who is road readers bill to the A and B railway for their respective shares. To what accounts should these expenses be charged on the books of the A and B railway credit the amount received from the A railway?

Answer. The payments made by the A and B railway for the use of the 13 miles of track should be charged to Conduct[illegible] 43, "Rents for tracks, yards, [illegible]

CASE 8.

Query. "To what account should be charged repairs to bridges over railroads, or to carry them over us?"

Answer. Any repairs or renewals to a bridge built by a railroad company to carry its tracks over any stream, road, street, or other railroad, should be charged to Maintenance of Way and Structures, account No. 4, "Repairs and renewals of bridges and culverts."

A bridge built to carry any highway or track of another railroad over its own roadbed should be considered as an overhead bridge, and any repairs or renewals to such bridge should be charged to Maintenance of Way and Structures, account No. 5, "Repairs and renewals of fences, road crossings, signs, and cattle guards."

CASE 9.

Query. To what account should be charged clearing out ash pits along line of road (not at roundhouse)?

Answer. Conducting Transportation, account No. 21, "Engine and roundhouse men."

This is the only heading under which this class of labor is provided for, and as the ash pits are nearly always adjacent to the roundhouses it is thought best to include all expenses of this nature in one account.

CASE 10.

Query. To what account should be charged the wages of yard brakemen making up trains in yards prior to trains going in service?

Answer. When this service is performed by a regular yard crew, the wages of brakemen are chargeable under the classification to Conducting Transportation, account No. 28, "Switchmen, flagmen, and watchmen."

If, however, the train is made up before, or distributed after the run is made by the regular train crew, the wages of the brakemen are chargeable to Conducting Transportation, account No. 26, "Train service."

CASE 11.

Query. To what account should the wages of passenger car cleaners be charged?

Answer. The wages of all passenger and freight car cleaners are chargeable to Conducting Transportation, account No. 27, "Train supplies and expenses."

CASE 12.

Query. To what account should the wages of employees engaged in oiling cars be charged?

Answer. Wages of car oilers are properly chargeable to Conducting Transportation, accoun No. 27, "Train supplies and expenses."

CASE 13.

Query. To what account should the rent of general offices be charged?

Answer. Rent of general offices should be charged to Conducting Transportation, account No. 44, "Rents of buildings and other property," which provides for "payments for rent of buildings and other property" (including offices) when such property is used in connection with the operations of the road.

CASE 14.

Query. Should switching charges which are provided for in the through rate, expenses of switching "bad-order cars" for delivery to shops, and charges for transferring passenger and baggage cars to and from tracks of connecting lines be charged to account No. 32, "Switching charges—balance"?

Answer. All payments made to other companies for switching cars or locomotives are properly chargeable to Conducting Transportation, account No. 32, "Switching charges—balance."

CASE 15.

Query How should the item of "Car mileage—balance" be reported on the form provided by the Interstate Commerce Commission for making annual returns?

Answer. In making annual reports to the Commission, only the net balance of the "Car mileage balance" account should be used, without distinction as to passenger or freight equipment. If the result for both classes of equipment is a credit balance, the amount should be reported under "Other earnings from operation," on page 35 of the form for making annual reports to the Commission. If the result is a debit balance the amount should be reported as an expense under Conducting Transportation, on page 43 of the prescribed form.

CASE 16.

Query. To what account should the wages of a traveling engineer, whose duties are to instruct engineers in the handling of locomotives, be charged?

Answer The wages of a traveling engineer, whose duties are to instruct engineers in handling locomotives, should be charged to Conducting Transportation, account No. 21, "Engine and roundhouse men."

CASE 17.

Query. Should account No. 34, "Hire of equipment," be construed as requiring all payments made for use of equipment (other than "Car mileage—balance") to be charged to this account, or only the net balance paid?

Answer. Account No. 34 should represent only the net balance paid for use of equipment, other than that accounted for under Conducting Transportation, account No. 33, the same as if the title of the account read "Hire of equipment—balance."

CASE 18.

Query What is the distinction between the stock yard expenses in accounts No 30 and No 31 and stock yard expenses in account No. 42 of the Interstate Commerce Classification?

Answer Stock pens or yards, located at stations for the accommodation of stock received for shipment or used for the feeding and care of stock while en route between shipping points, should be regarded merely as station facilities, and the expenses of such pens or yards are chargeable to Conducting Transportation, accounts No. 30 and No. 31, which are intended to provide only for the labor and supplies necessary for the proper care of stock while in transit from the shipper to the consignee.

The account No. 42 is intended to embrace all expenses of thoroughly equipped stock yards operated by railroad companies in connection with their regular business.

CASE 19.

Query To what account should be charged items of freight charges paid other roads for return of freight unsent?

Answer. Charges paid for the return of freight unsent should be deducted from freight revenue. It should, however, be stated that it is not the usual practice of roads to make charges for the return of freight unsent.

APPENDIX II.

DIAGRAMS.

DIAGRAM No. 1.

RAILWAY CAPITAL,

SHOWING AMOUNT ASSIGNABLE TO CAPITAL STOCK, FUNDED DEBT, AND CURRENT LIABILITIES.

EXPLANATORY NOTE.

diagram shows the amount of railway capital
from 1888 to 1894, and by groups from 1890 to
per line indicates the amount of total capital,
ount of funded debt (except in Groups I and X,
pital stock), the third line the capital stock (ex
where it represents funded debt), and the fou
s. It should be noted that the scale for the U
ram is one-half the scale of the groups.

INTERSTATE COMMERCE COMMISSION

RAILWAY CAPITAL - SHOWING AMOUNT ASSIGNABLE TO CAPITAL STOCK, FUNDED DEBT, AND CURRENT LIABILITIES

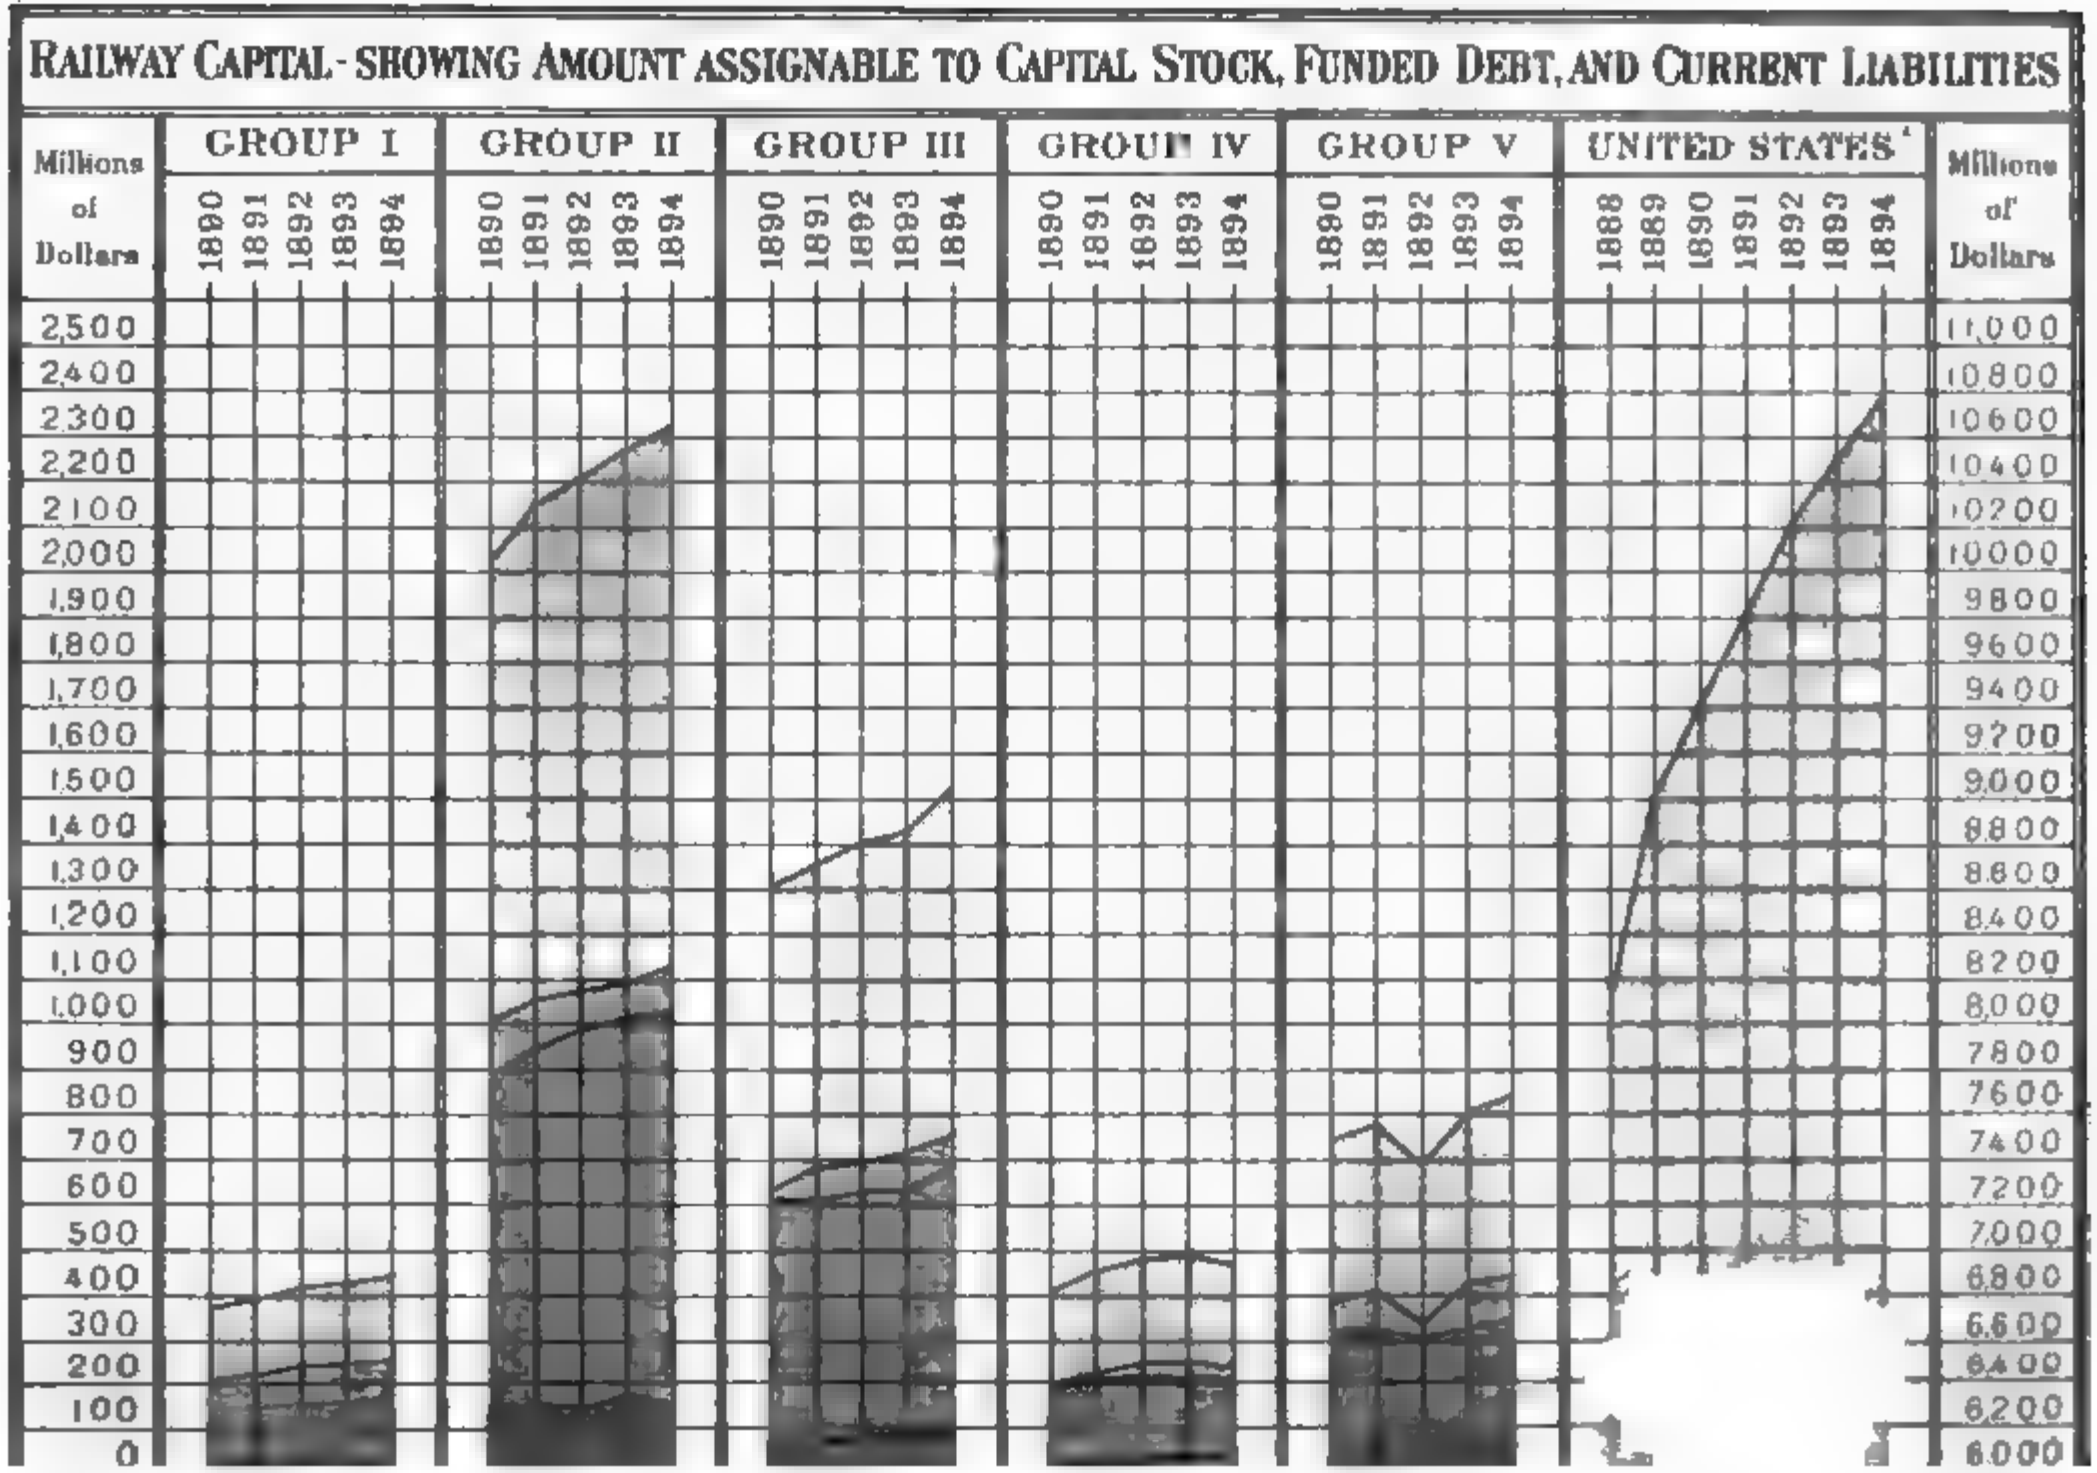

DIAGRAM No. 2.

CAPITAL STOCK,

SHOWING PROPORTION NOT PAYING DIVIDENDS AND PROPORTION PAYING DIVIDENDS.

EXPLANATORY NOTE.

This diagram shows the proportion of capital stock that paid no dividends and the proportion paying dividends for the United States from 1888 to 1894, and by groups from 1890 to 1894, inclusive. The black portion of the diagram represents the proportion of capital stock that paid no dividends, and the shaded portion of the diagram the proportion upon which dividends were paid.

Interstate Commerce Commission

Capital Stock - showing Proportion not paying Dividends and Proportion paying Dividends

and the shaded portion of the diagram the
nt.

Interstate Commerce Commission

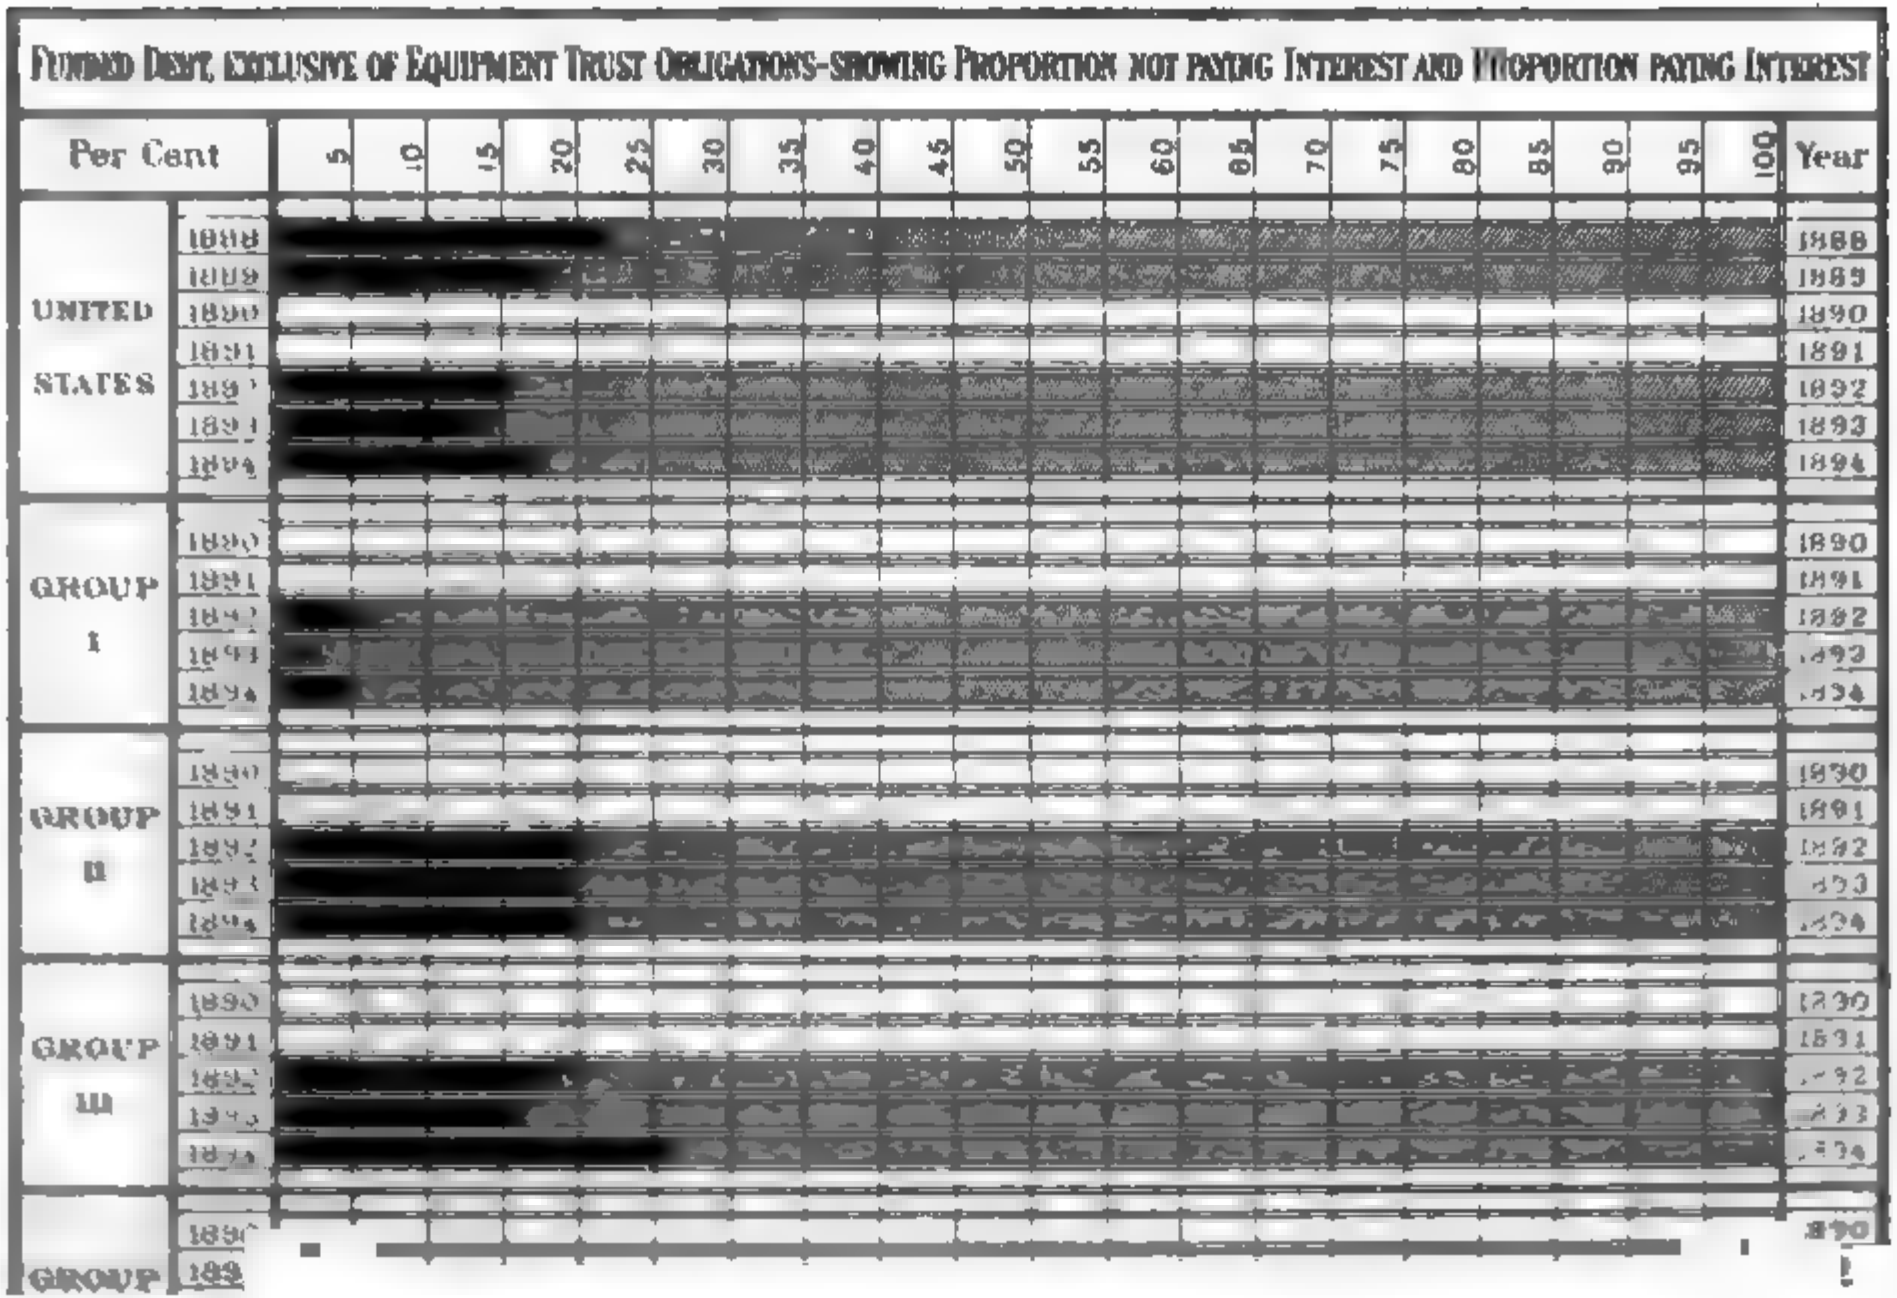

DIAGRAM No. 4.

EARNINGS AND INCOME,

SHOWING AMOUNT OF PASSENGER, FREIGHT, AND GROSS EARNINGS, AND INCOME FROM OTHER SOURCES.

EXPLANATORY NOTE.

This diagram shows the amount of total earnings and income for the United States from 1888 to 1894, and by groups from 1890 to 1894, inclusive. The upper line of the diagram indicates the amount of the total earnings and income, the second line the gross earnings, the third line the earnings from freight service, the fourth line the earnings from passenger service (except in Group X for 1894 where it indicates income from other sources), and the fifth line, income from other sources (except in Group X for 1894 where it indicates earnings from passenger service). It should be noted that the scale for the United States in this diagram is one-half the scale of the groups.

INTERSTATE COMMERCE COMMISSION

EARNINGS AND INCOME - SHOWING AMOUNT OF PASSENGER, FREIGHT, AND GROSS EARNINGS, AND INCOME FROM OTHER SOURCES

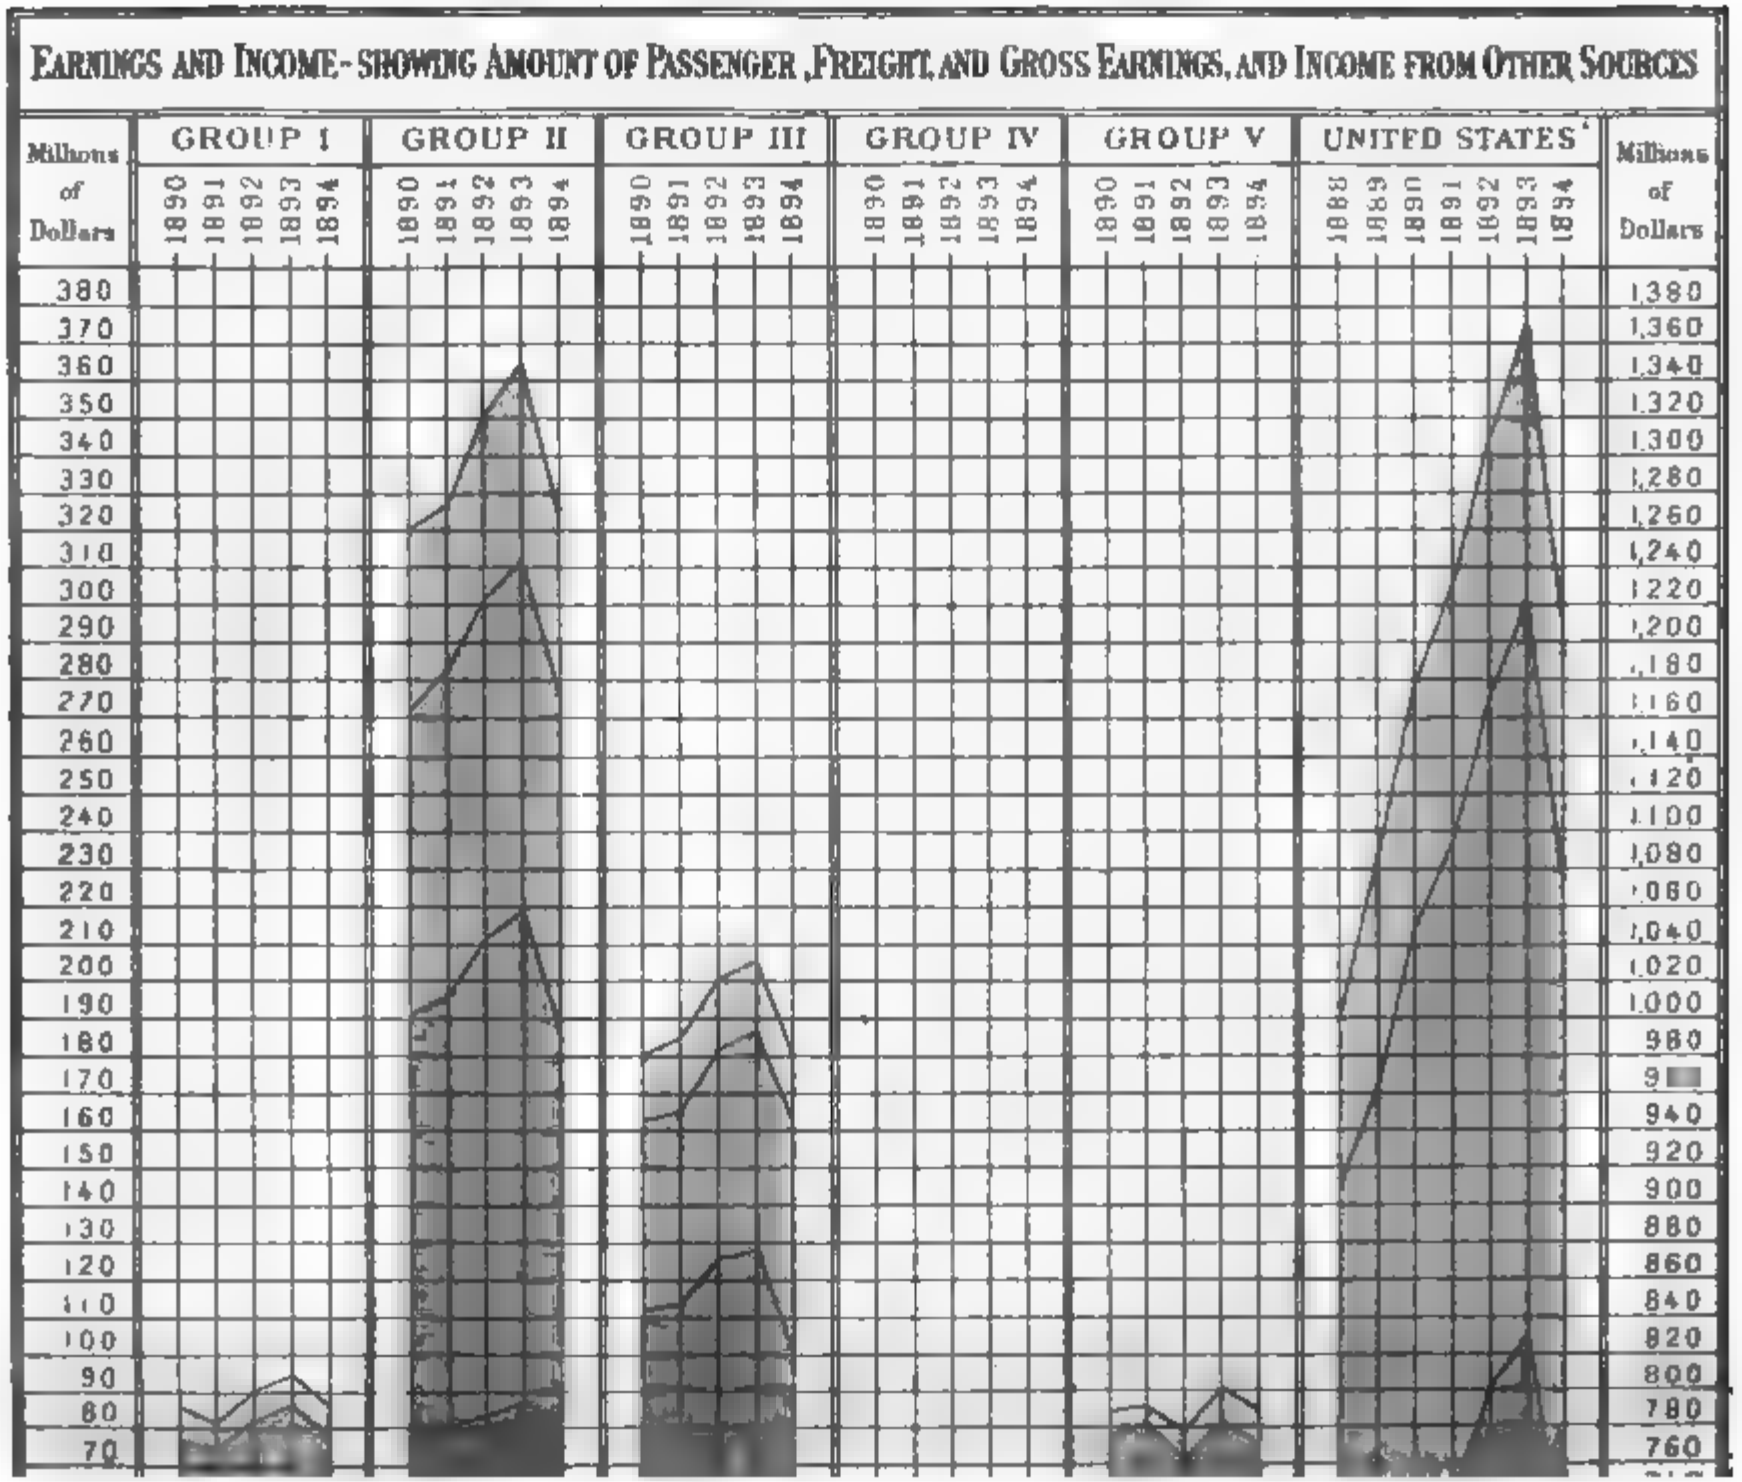

DIAGRAM No. 5.

CHARGES AGAINST EARNINGS AND INCOME,

SHOWING AMOUNT ASSIGNABLE TO OPERATING EXPENSES, FIXED CHARGES, AND TO DIVIDENDS AND OTHER PAYMENTS.

EXPLANATORY NOTE.

This diagram illustrates the total expenditures charged against total earnings and income for the United States from 1888 to 1894, and by groups from 1890 to 1894, inclusive. The upper line indicates the amount of total expenditures, the second line the amount of operating expenses (except in Group X for 1892, 1893, and 1894, where it indicates fixed charges), the third line the amount of fixed charges (except in Group X for 1892, 1893, and 1894, where it indicates operating expenses), and the fourth line the amount of dividends, including "other payments from net income." In Group IX the amount of dividends is too small to be shown on a diagram of this scale. It should be noted that the scale for the United States in this diagram is one-half the scale of the groups.

CHARGES AGAINST EARNINGS AND INCOME—SHOWING AMOUNT ASSIGNABLE TO OPERATING EXPENSES, FIXED CHARGES AND TO DIVIDENDS AND OTHER

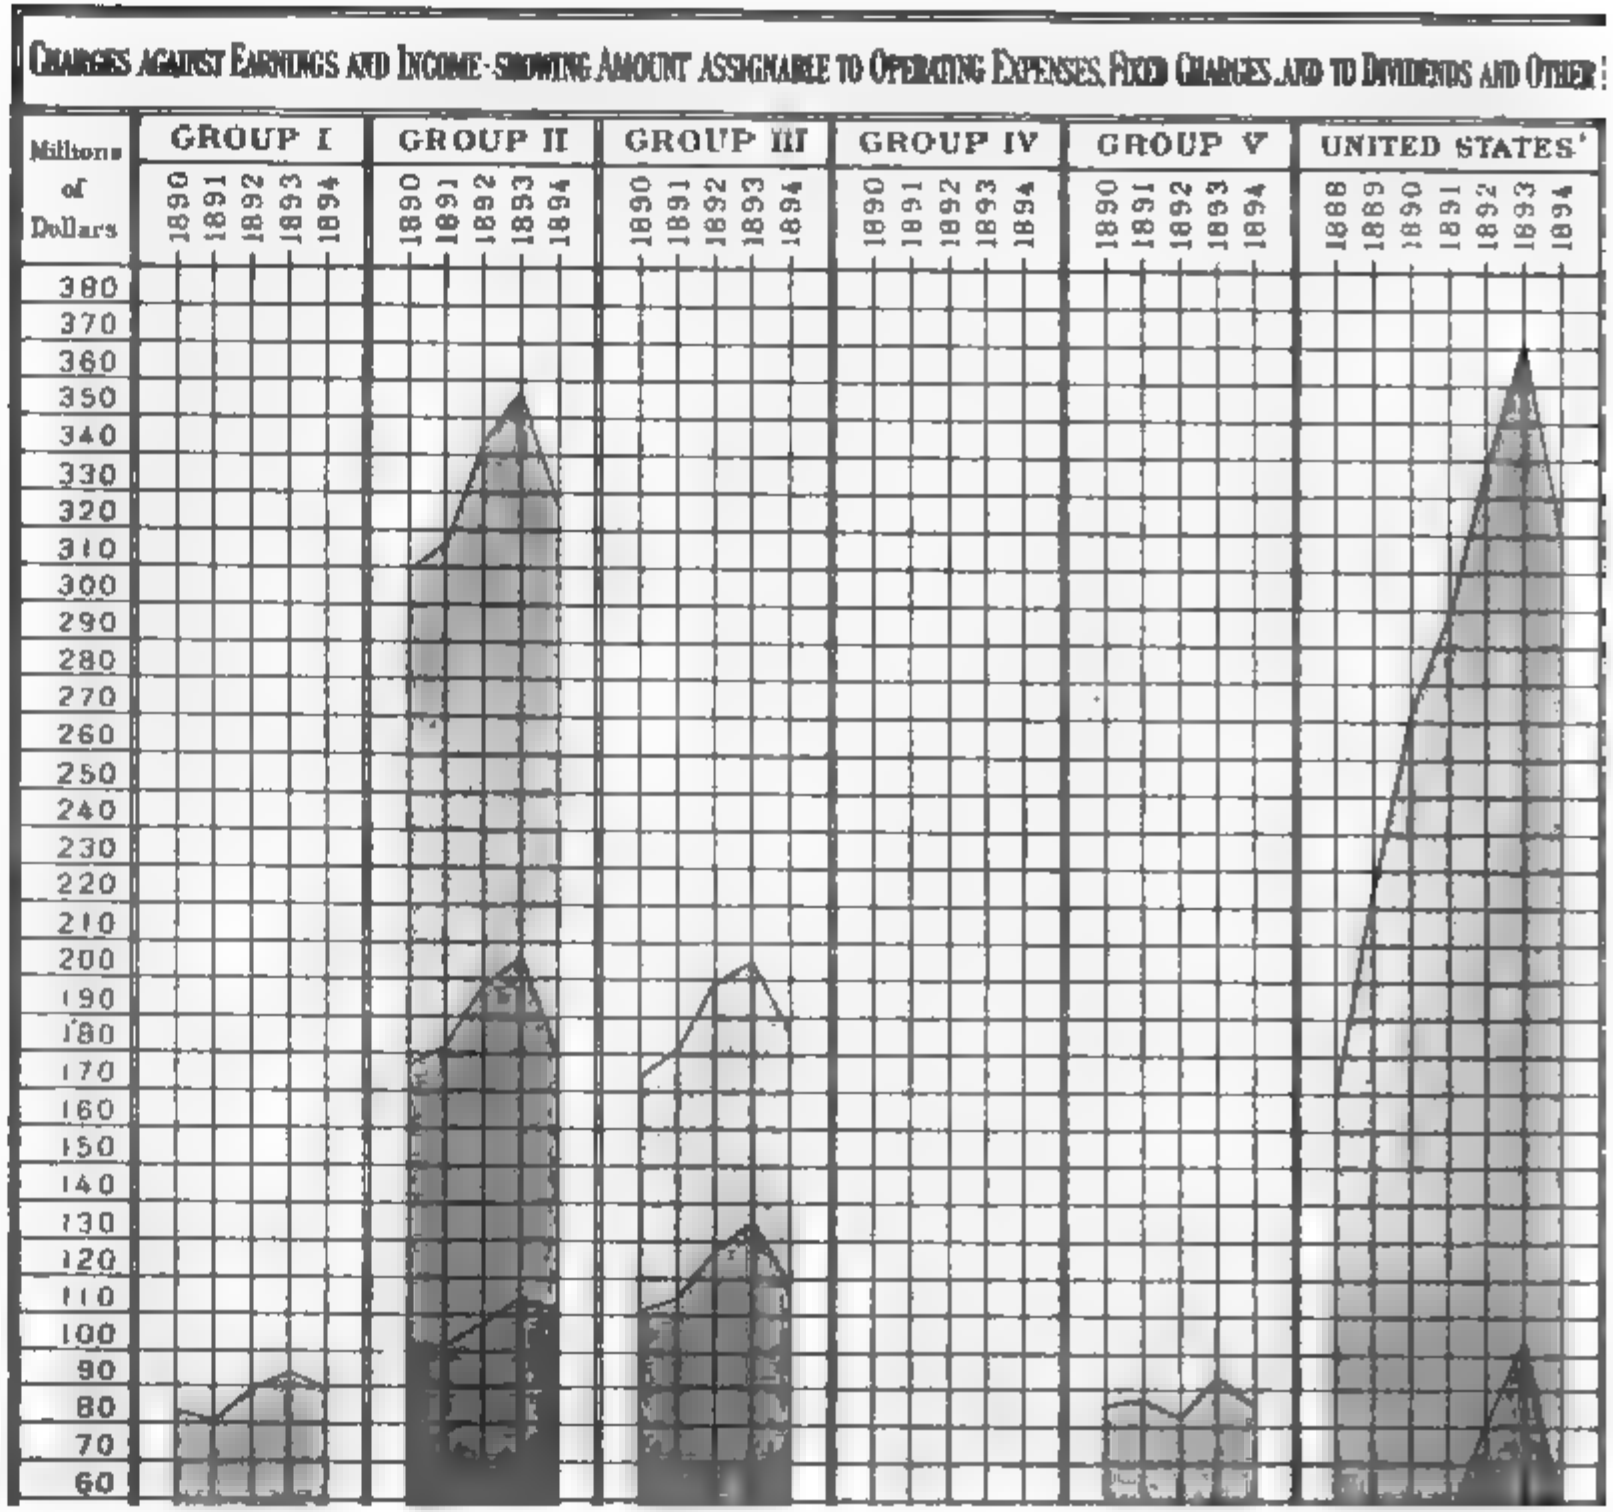

DIAGRAM No. 6.

DENSITY OF PASSENGER TRAFFIC.

EXPLANATORY NOTE.

This diagram illustrates the density of passenger traffic for the United States from 1889 to 1894, and by groups from 1890 to 1894, inclusive. The comparison of density is shown on a proportional basis. The proportions are derived on the basis of the ratio of the several items representing "Passenger miles per mile of line," in the right hand column of the diagram, to such item thereon as represents the greatest density of traffic, namely, that of Group I for 1893.

Interstate Commerce Commission

DIAGRAM No. 8.

AVERAGE RECEIPTS PER PASSENGER PER MILE AND PER TON PER MILE.

EXPLANATORY NOTE.

This diagram shows the average receipts per passenger per mile and the average receipts per ton per mile for the United States from 1888 to 1894, and by groups from 1890 to 1894, inclusive. The shaded portion of the diagram represents the average receipts per passenger per mile, and the black portion the average receipts per ton per mile.

Average Receipts per Passenger per Mile and per Ton per Mile

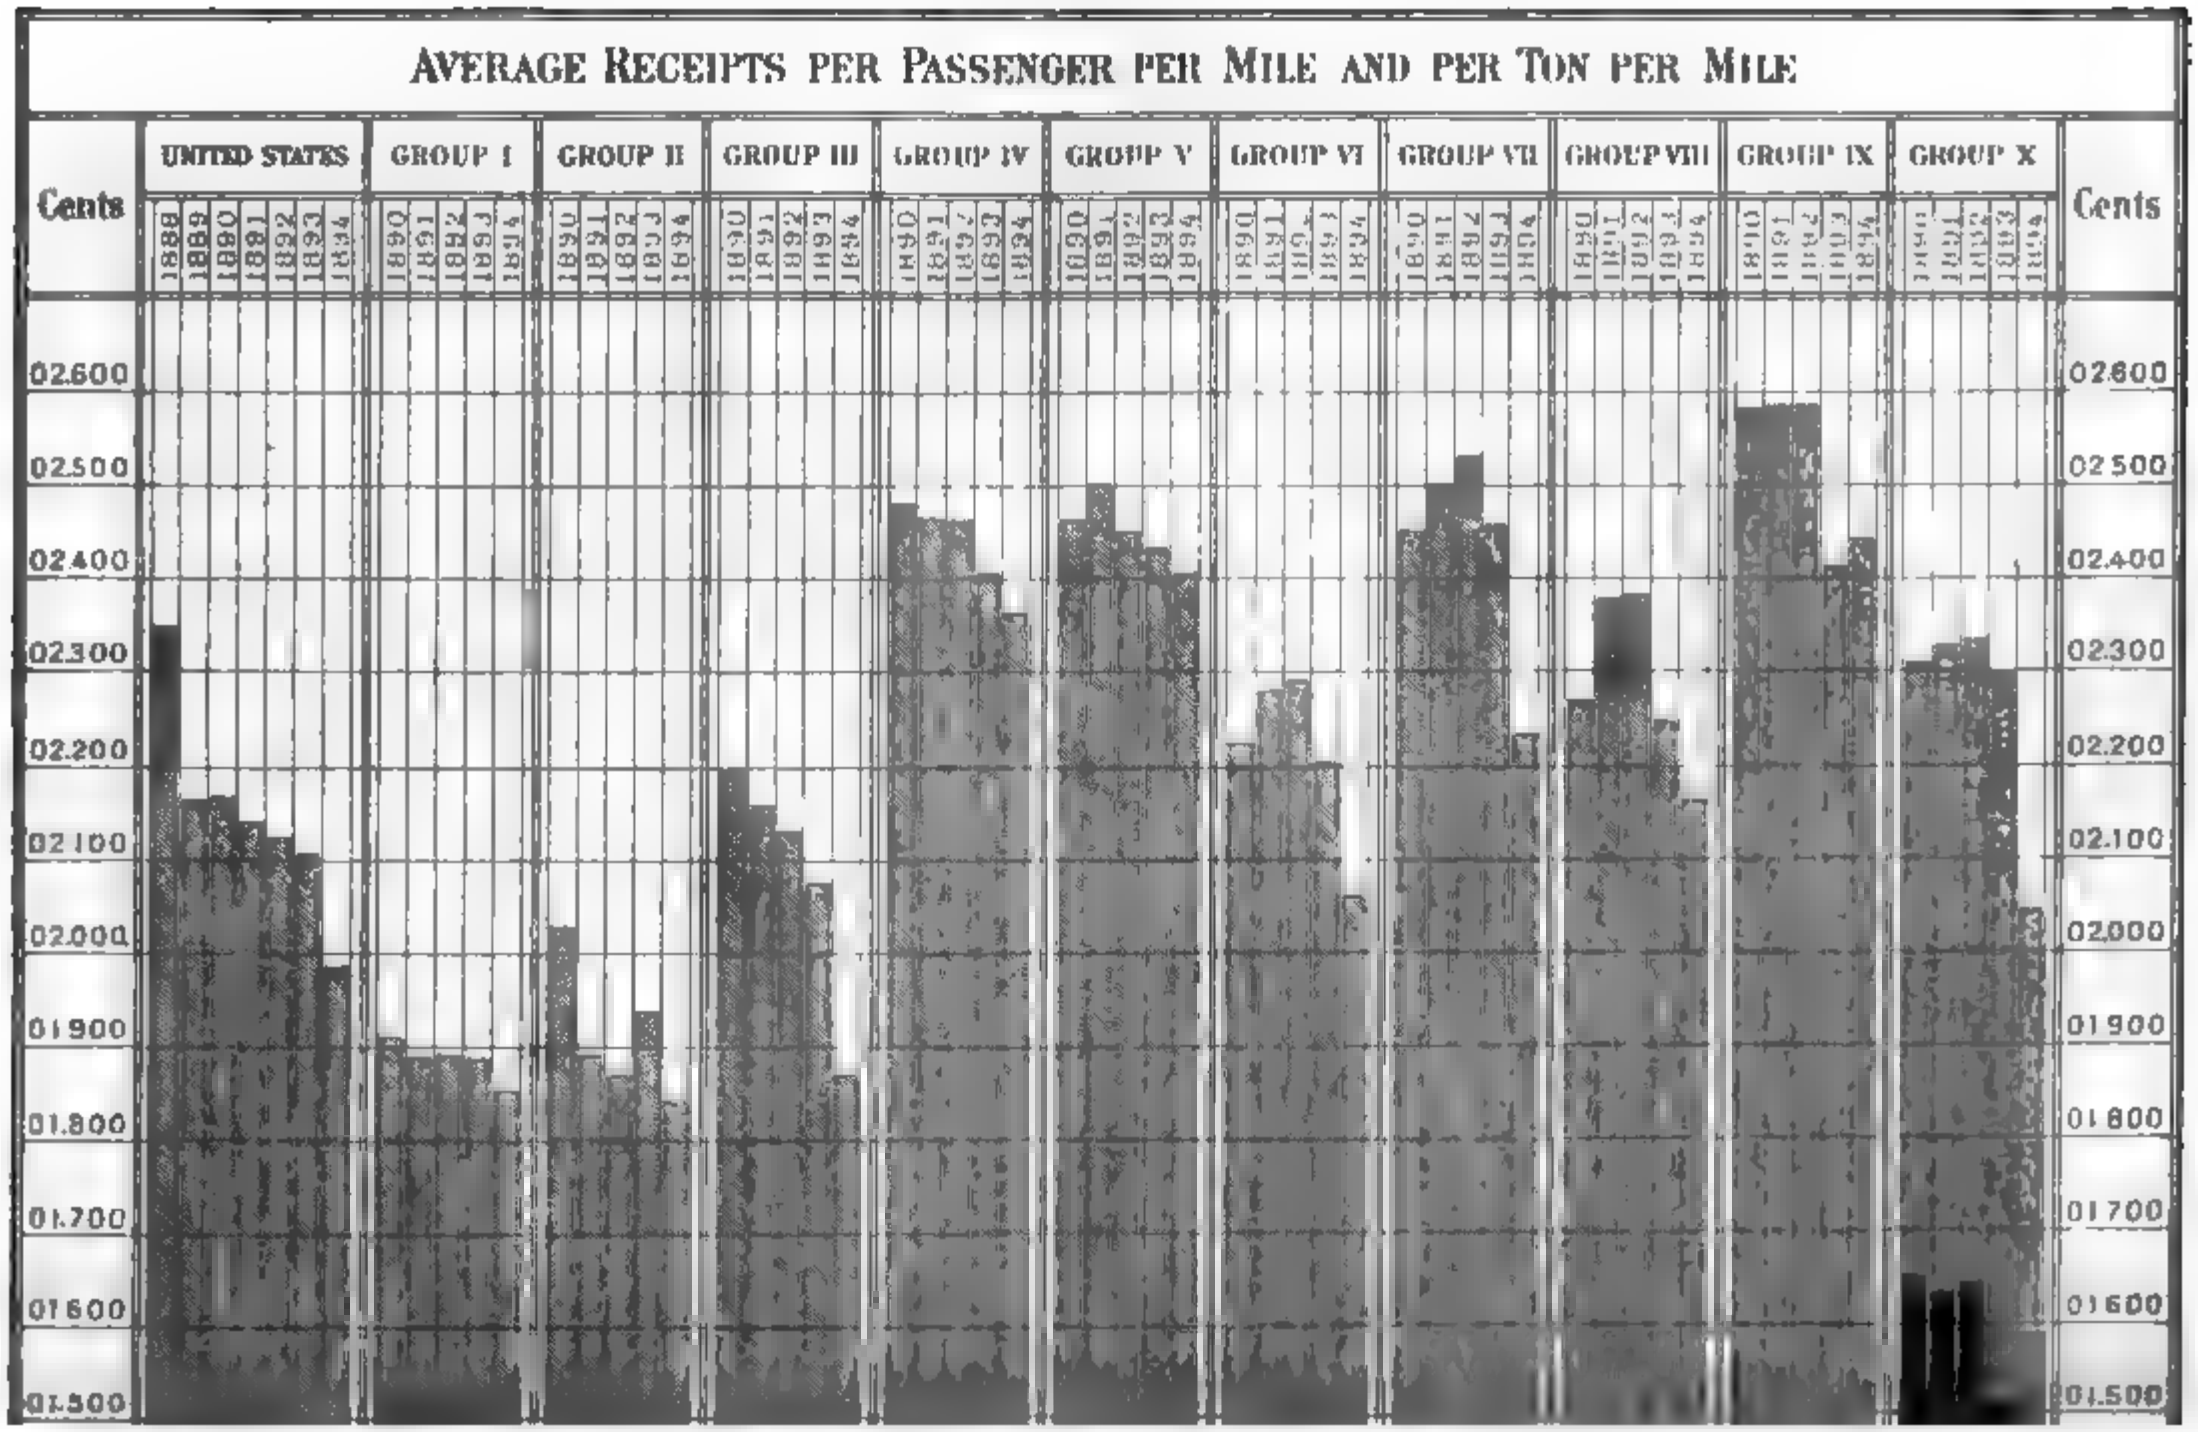

DIAGRAM No. 9.

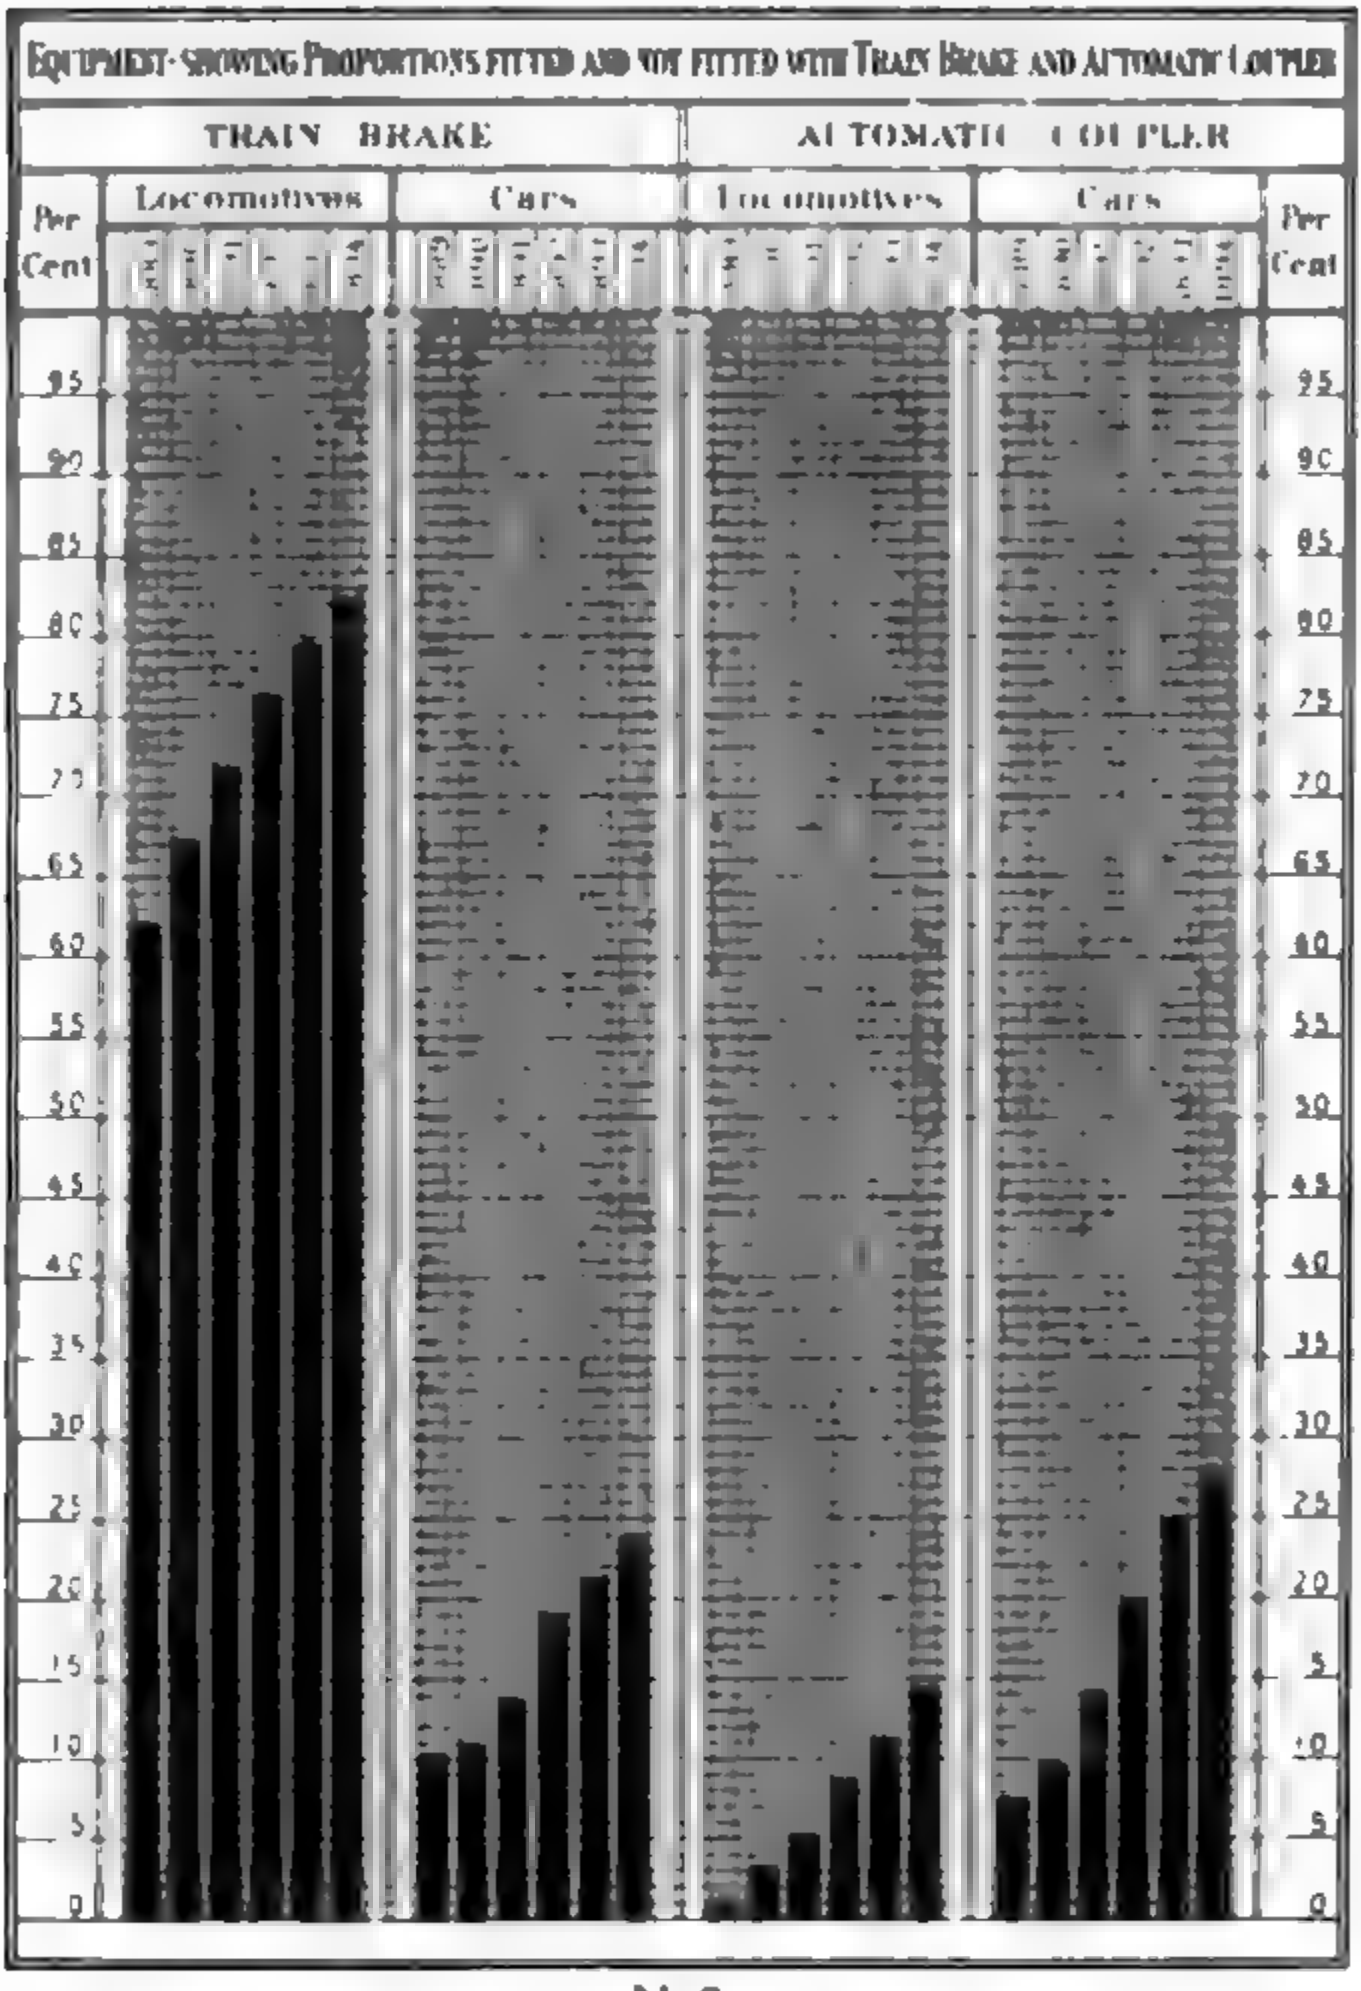
EQUIPMENT,

SHOWING PROPORTIONS FITTED AND NOT FITTED WITH TRAIN BRAKE AND AUTOMATIC COUPLER.

EXPLANATORY NOTE.

This diagram shows the proportion of equipment, both for locomotives and cars, fitted with train brake and automatic coupler and the proportion not fitted with these devices, from 1889 to 1894, inclusive. The black portion of the diagram represents the proportion of the equipment having these appliances, and the shaded portion of the diagram the proportion not fitted with them.

INTERSTATE COMMERCE COMMISSION



No. 9

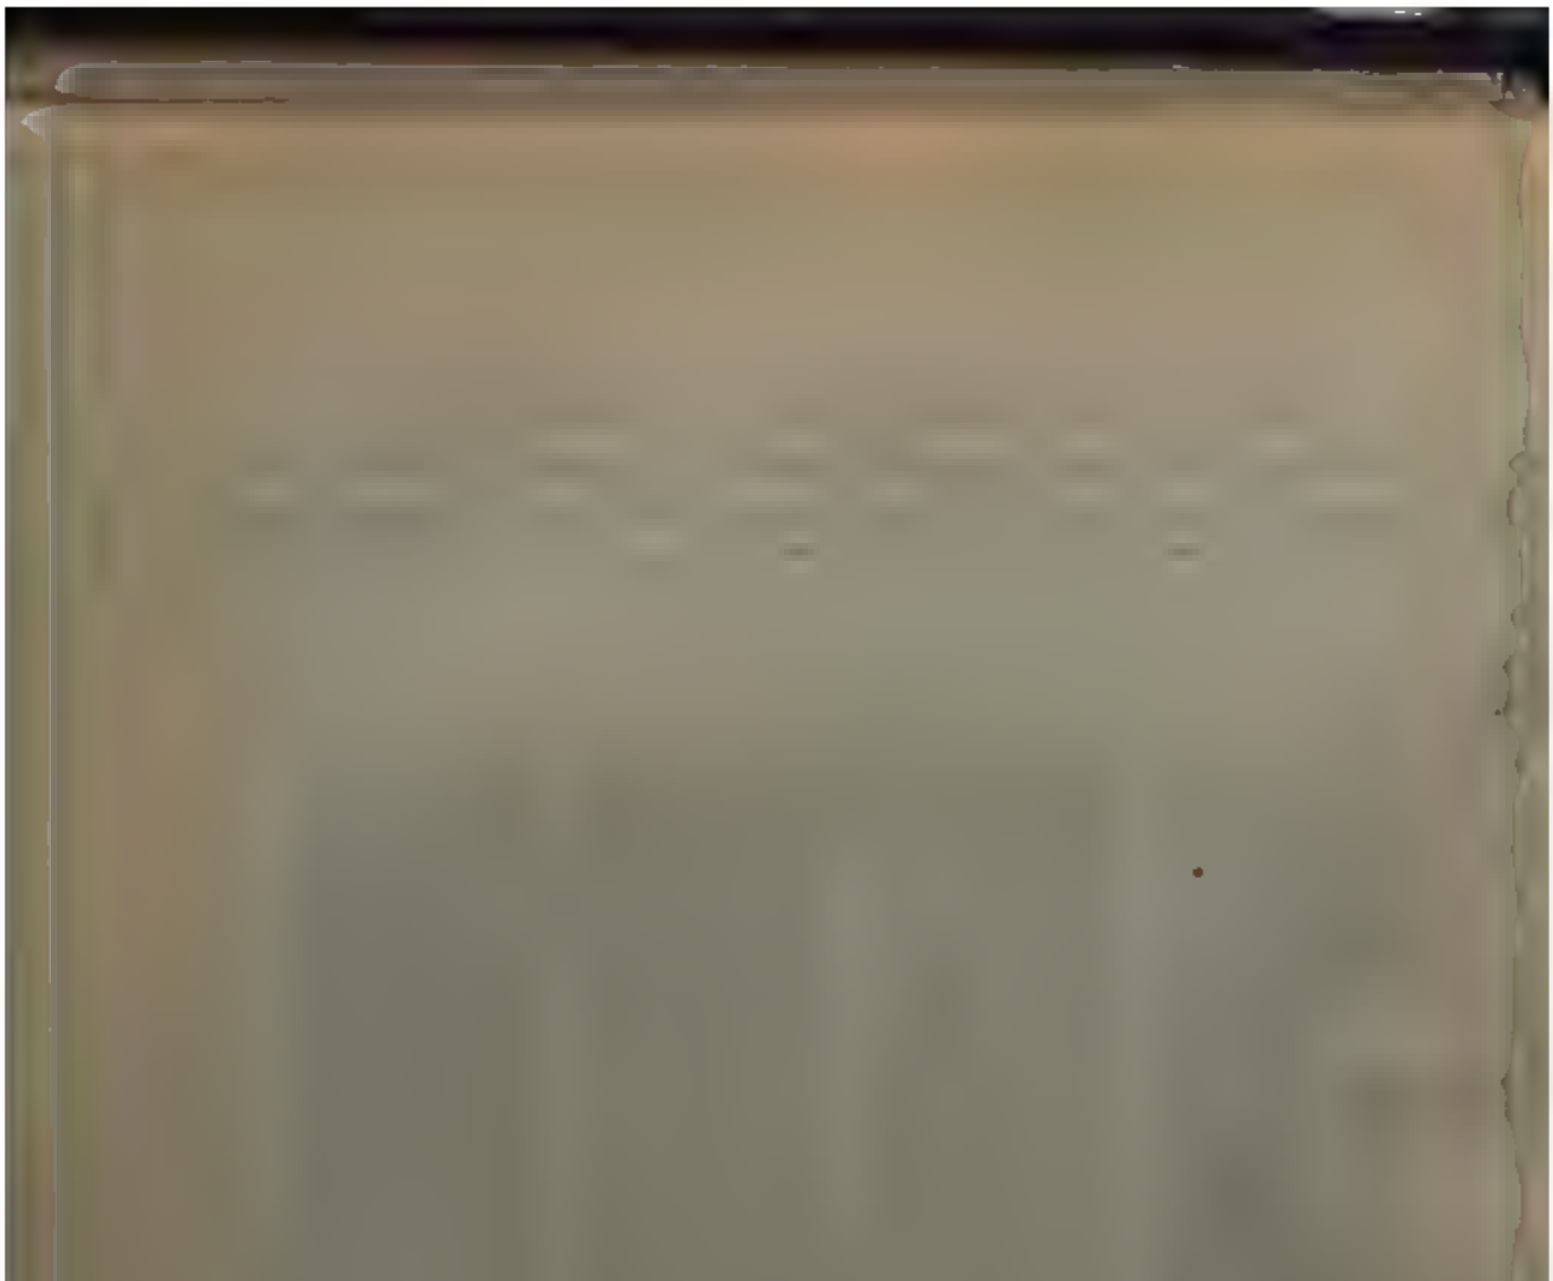


TABLE I.

CLASSIFICATION OF RAILWAYS AND MILEAGE

FOR

THE YEAR ENDING JUNE 30, 1894.

EXPLANATORY NOTE.

The established custom of tabulating statistics by territorial groups is continued in this report. "Supplement A," pages 254 and 255, contains totalized figures for certain roads lying in more than one group.

In this table all independent operating roads appear in alphabetical order, printed flush, while subsidiary roads, whether making operating or financial reports, are indented, being also alphabetically arranged. Such subsidiary roads as operate their own, and possibly other roads, for the leading road of a system, are so arranged, however, after a preceding alphabetical arrangement of the subsidiary roads the operations of which are included in the report of the leading road. For illustration, see pages 156 to 162, Nos. 512 to 595, both inclusive. A subsidiary road may have in a subsidiary relation to itself another road, which will appear indented to the second place, and if some road be subsidiary to the last-named company this third road will be still further indented. For illustration, see page 156, No. 512, Pennsylvania Railroad Company, which appears printed flush as the principal road in an operating system, and under it, as subsidiary, on page 158, No. 553, the United New Jersey Railroad and Canal Company "indented." No. 554, the Belvidere Delaware Railroad Company, is subsidiary to the last-named company, and "indented to second place," and this road has subsidiary to itself Nos. 555, 556, and 557, the Enterprise Railroad Company, the Martins Creek Railroad Company of New Jersey, and the Martins Creek Railroad Company of Pennsylvania, which are "still further indented." This arrangement shows the proper relation of any road to the immediate road or roads preceding, and this plan has been followed throughout all tables of the report. The form of relation existing between subsidiary companies and the road by which they are controlled is stated in column 6 of this Table. In the subsequent tables the roads have abbreviated names, but the same numbers as in Table I. The only exception to this statement is found in "Supplement B," pages 256 to 261 inclusive, where the numbers of roads given are those of the same roads as used in the Sixth Annual Report, the roads having ceased to have a corporate existence during the year covered by this report, and, therefore, not appearing in Table I proper. Some of these roads appear in Table II and following tables with the same "No." printed in bold-faced type, for the purpose of showing their statistics up to the date of the corporate change within the year.

Subsidiary road	775
Operating road, independent	776
Subsidiary road, other relation. The Cin., Indpls., St. L. & Chic. Ry. furnished all money to construct this road. The Clev., Cin., Chic. & St. L. Ry. now owns all of the securities, operating it as a branch of its own line.	777
Subsidiary road, contingent money rental. The Cin., Indpls., St. L. & Chic. Ry. owned all the bonds and a majority of capital stock, and operated the road from May, 1884, applying the net earnings toward payment of interest on bonds. By virtue of the consolidation of Cin., Indpls., St. L. & Chic. Ry. with others, on July 1, 1889, into Clev., Cin., Chic. & St. L. Ry., the rights and obligations were vested in the latter Co., which owns the entire capital stock.	778
Subsidiary road, other relation. Controlled through ownership of entire capital stock	779

TABLE II.

AMOUNT OF RAILWAY CAPITAL

AT THE

CLOSE OF THE YEAR ENDING JUNE 30, 1894.

EXPLANATORY NOTE.

The statistics in this table are compiled on the basis of territorial grouping. With a few exceptions, which are explained by footnotes, the roads appearing in this table are those filing annual reports in season for use in all tabulations. The "Supplement," pages 332 and 333, contains totalized figures for certain roads lying in more than one group. The group data for such roads were assigned to groups on the basis of group location of "Line owned," except as otherwise indicated by footnotes.

[1] Inserted to show relation of five roads following, the first three of which constitute "Line in Maine" of the Canadian Pac Ry (See page 532, No 55 for capital of Canadian Pac Ry.)
[2] Report not filed. Inserted to show relation of road following.
[3] No mileage owned; on basis of mileage operated.
[4] Report not filed. Inserted to show relation of three roads following.
[5] Includes $1 250, paid in on shares not issued.
[6] Report for year ending March 31, 1894.
[7] Report for year ending September 30, 1894.

CLOSE OF THE YEAR ENDING JUNE 30, 1894—Continued.

[1] Report for period February 1 to June 30, 1894.
[2] Report of Receivers.
[3] See page 342, No. 175, for totals covering entire road.
[4] Includes bonds, $1,000,000 of Parkersburg Brh R R., $10,000,000 of Pittsb & Connellsv R. R., and $4,840,000 of Balt & Phila R R.
[5] On basis of 1,401.74 miles, which includes 570.24 miles of Balt & Ohio & Chic., Balt & Phila., Parkersburg Brh Pittsb & Connellsv, and Wash Cy & Pt. Lookout R. Rs.
[6] See note 4.
[7] Excludes $250,000 apportioned to other properties.
[8] Organization not complete; no stock or bonds yet issued.
[9] Report for period September 25, 1893, to June 30, 1894.
[10] Covers also 100 miles of line under construction.
[11] On basis of 361.79 miles, which includes 246.21 miles of N. J. So., Long Brh & Sea Shore,

[1] See page 332, No. 1195, for totals covering entire road.
[2] On basis of 1,622 35 miles, which includes 217 05 miles of "proprietary companies"
[3] Includes bonds, $1 770,000 of Cant, Aberd. & Nashv, $2 800,000 of Yazoo & Miss. Vy., and $8 200,000 of Chic, St L & N O R Rs.
[4] See note 3.
[5] Excludes $8,205,000 covered by obligations of Ill. Cent. R. R and included in funded debt of that road
[6] Excludes $2 800,000 covered by obligations of Ill. Cent. R. R., and included in funded debt of that road.
[7] Inserted to show relation of road following
[8] Report of Receivers
[9] See page 332, No 1220 for totals covering entire road.
[10] On basis of 2 109 05 miles, which excludes 11.16 miles of Louisv., Harrods Ck. & Westpt. R. R. and includes 40 miles of Covington Brh and 20 70 miles of Clarksv & Princeton Brh
[11] Funded debt, $1 150 000, held by Louisv & Nashv R R., and covered by an issue of its own 50-year 4 per cent gold bonds
[12] Funded debt, $3 020 000, held by Louisv. & Nashv R. R, and covered by an issue of its own first-mortgage 5 per cent trust bonds
[13] Funded debt $1 200 000 held by Louisv & Nashv. R R., and covered by an issue of its own first-mortgage 5 per cent trust bonds
[14] Report for nine months ending June 30, 1894.

[1] See page 332, No. 1312, for totals covering entire road.

[2] The funded debt and capital stock include issues for the acquisition, by purchase or exchange, of the stocks and bonds of other roads forming part of the system, and the apportionment per mile is made upon that basis.

[3] On basis of 8,813.66 miles. See note 2.

[4] On basis of 6,634.79 miles. See note 2.

[5] Inserted to show relation of road following.

[6] See page 332, No. 720, for totals covering entire road.

[7] On basis of 21.31 miles "operated" no mileage owned.

[8] Figures cover also those of four roads following.

[9] On basis of 1,064.69 miles, which includes 662.61 miles of four roads following, and excludes 31.51 miles of Davenpt. Io. & Dak. Ry. and 12.57 miles acquired from Minneap. & St. L. Ry.

[10] On basis of 1,108.77 miles, which includes 662.61 miles of four roads following.

[11] See note 8.

[12] Inserted to show relation of two roads following.

[13] Private road.

[14] Includes $3,000,000 of Kans. Cy., St. L. & Chic. R. R.

[15] See page 332, No. 1334, for totals covering entire road.

[16] Included in "funded debt," Chic. & Alt. R. R.

[17] Includes $2,803,500 stock of "proprietary companies," excludes $250,000, apportioned "to other proportion."

[18] On basis of 4,970.76 miles, which includes 1,188.47 miles of "proprietary companies."

[19] Includes bond of "proprietary companies."

[1] Capital stock and funded debt issued to S. Wn. Coal & Iron Co., for construction of road, amount thus issued not reported.

[2] See page 382, No 1761, for totals covering entire road.

[3] On basis of 6.611 82 miles "operated," exclusive of trackage rights; no mileage owned.

[4] $2,858 000 entire bonds, apportioned to other properties.

[5] Capital stock and bonds cover railroad, telegraph lines, rolling stock, ferry and river steamers, etc.

[6] Includes $27,856.000, U. S. subsidy bonds. See also note 5.

[7] Capital stock, bonds, etc., cover railroad, telegraph lines, rolling stock, ferry steamers, etc.

[8] Capital stock and bonds cover railroad, telegraph lines, rolling stock, etc., also lands granted by the United States.

[9] Inserted to show relation of eight roads following.

[10] Capital stock, bonds, etc., cover steamship lines.

[11] The constituent roads of the Utah Cent. Ry. at the time of consolidation, had bonds outstanding to the amount of $2,300,000, which were to be redeemed by an equal amount of consolidated bonds of the Utah Cent. Ry., but issue of stock or bonds of this road has not yet been reported.

TABLE III.

EARNINGS AND INCOME

FOR

THE YEAR ENDING JUNE 30, 1894.

A.—EARNINGS FROM OPERATION.

EXPLANATORY NOTE.

The statistics in this table were compiled on the basis of territo grouping. The roads appearing in this table are, with a few exceptic which are explained by footnotes, those filing operating reports in s son for use in all tabulations. The "Supplement," pages 384 to 3 contains totalized figures for certain roads lying in more than group. The group data in this table for some of these roads w assigned in this office, as indicated by footnotes.

It should be stated in explanation of the use of "Miscellaneous," the boxing of this table, that in column 6, under "Earnings aris from passenger service," it covers "Extra baggage and storage" a "Other items," and in column 11, under "Earnings from frei service," it covers amounts designated as "Other items."

TABLE III.

EARNINGS AND INCOME

FOR

THE YEAR ENDING JUNE 30, 1894.

B.—INCOME FROM PROPERTY OWNED BUT NOT OPERATED.

EXPLANATORY NOTE.

The statistics in this table were compiled on the basis of territorial grouping. With a few exceptions, which are explained by foot-notes, the roads appearing in this table are those filing annual reports in season for use in all tabulations. The "Supplement," page 423, contains totalized figures for certain roads lying in more than one group. For some of these roads the group assignment of income from "Stocks," "Bonds," and "Miscellaneous" was made in this office on the basis of the percentage proportion of "Income from other sources" of such roads for the different territorial groups in which they are located.

The "Rents" shown in column 22 of this table represent rentals received from lease of road, exclusive of "Rents from tracks, yards, and terminals," which are included in "Other earnings," Table III-A, column 15.

	Total—Group I	342,600	97,370	6,112,550	8

TABLE IV.

GENERAL EXPENDITURES

FOR

THE YEAR ENDING JUNE 30, 1894.

A.—OPERATING EXPENSES.

EXPLANATORY NOTE.

The statistics in this table were compiled on the basis of territorial grouping. With a few exceptions, which are explained by footnotes, the roads appearing in this table are those filing operating reports in season for use in all tabulations. The "Supplement," page 450, contains totalized figures for certain roads lying in more than one territorial group. The group data in this table for some of these roads were assigned to groups in this office, as indicated by footnotes.

It should be noted that in columns 5, 6, 7, and 8 the last three figures of the items representing hundreds have been omitted.

Group A.....	38, 825, 405	1. 18067	67. 93	8, 949	5

[1] Includes $5,940 "unclassified" covers one road making no classification of "operating expenses" under the four general heads.

[2] Inserted to show relation of three roads following.

[3] See page 450, No. 1570, for totals covering entire road.

[4] See page 450, No. 1398, for totals covering entire road.

[5] No report of "operating expenses."

[6] See page 450, No. 1455, for totals covering entire road.

[7] No report of operations.

[8] See page 450, No. 1751, for totals covering entire road.

[9] Includes $5,940 unclassified.

TABLE IV.

GENERAL EXPENDITURES

FOR

THE YEAR ENDING JUNE 30, 1894.

B.—FIXED CHARGES AND SUMMARY OF EXPENDITURES.

EXPLANATORY NOTE.

The statistics contained in this table were compiled on the basis of territorial grouping. The roads appearing in this table are, with a few exceptions, which are explained by footnotes, those filing annual reports in season for use in all tabulations. The "Supplement," pages 516 to 517, inclusive, contains totalized figures for certain roads lying in more than one territorial group. For some of these roads data were assigned to territorial groups in this office. "Interest on funded debt," column 12, and "Interest on interest-bearing current liabilities," column 13, were assigned to groups on the same basis as railway capital in Table II. "Rents paid for lease of road," column 14, were assigned to the proper territorial group, so far as possible, as determined from a study of the existing conditions in each case. In the case of roads No. 1334, Groups VI and VIII, and No. 1400, Groups VI, VII, and X, however, there is an exception, the data for these roads being all assigned on the basis of the group location of "Line owned." The other items were so assigned on the basis of the percentage proportion of "Income from operation" for each road in the different territorial groups in which it is located.

It should be said in explanation of the items for certain roads that appear in bold-faced type that they represent the "Fixed charges" of subsidiary companies paid from the "Income from lease of road" received from the operating road. These items are separately totalized to avoid duplication, and should not be taken into account as showing a part of the "Fixed charges" of the railways of the United States considered as a system.

Group II	Total	110,145,766	170,278
	Charges against income from operation.	87,301,775	.....
	Charges against income from lease of road.	22,843,990	170,278
Group III	Total	54,923,885	141,817
	Charges against income from operation.	47,872,302	.....
	Charges against income from lease of road.	7,061,583	141,817
Group IV	Total	16,928,195	7,142
	Charges against income from operation.	14,627,635	.....
	Charges against income from lease of road.	2,300,560	7,142
Group V	Total	32,200,210	18,306
	Charges against income from operation.	27,324,095	.....
	Charges against income from lease of road.	4,876,115	18,306
Group VI	Total	72,309,296	79,778
	Charges against income from operation.	64,136,416	.....
	Charges against income from lease of road.	8,172,880	79,778

TABLE V.

CHARGES AGAINST INCOME ON ACCOUNT OF RAILWAY CAPITAL

DURING

THE YEAR ENDING JUNE 30, 1894.

EXPLANATORY NOTE.

The statistics contained in this table were compiled on the basis of territorial grouping. The roads appearing in this table are, with a few exceptions, which are explained by footnotes, those filing annual reports in season for use in all tabulations. The "Supplement," page 555, contains totalized figures for certain roads lying in more than one group. The assignment of group data for such roads was made on the same basis as the assignment of railway capital in Table II, as explained on page 265.

The items in column 6 represent the interest on funded debt "accrued during year," and correspond with the items in Table IV–B, column 12. The "Miscellaneous" in column 8 represents interest on interest-bearing current liabilities "accrued," corresponding to the items in Table IV–B, column 13. The amount of such current liabilities is shown in Table II, column 12, under the head of "Other forms of indebtedness."

TABLE VI.

GENERAL BALANCE SHEET

FOR

THE YEAR ENDING JUNE 30, 1894.

[Showing Increase or Decrease as compared with June 30, 1893.]

EXPLANATORY NOTE.

The statistics presented in the following table were not compiled on the basis of territorial grouping followed in the preceding tables. The roads appearing in this table are, with a few exceptions, which are explained by footnotes, those filing reports in season for use in all tabulations.

There is an occasional excess of funded debt in this table over similar data presented in Table II, because of the fact that duplications sometimes arise in the case of subsidiary roads, whose "Funded debt" has been assumed by the operating company. The general balance sheets of such subsidiary roads have been included in this table for completeness. In other cases both "Capital stock" and "Funded debt" in this table exceed the amounts shown in Table II on account of the apportionment of a part of such items "To other properties." These exceptions are explained by footnotes.

[1] "Sinking fund."
[2] Includes $580, issued for deferred interest scrip.
[3] Includes $6,829,461, "sinking fund."
[4] Includes profit and loss from land grant and coal properties.
[5] Includes $250,000, excluded from Table II, apportioned to "other properties."
[6] Includes $31,735, excluded from Table II, apportioned to "other properties."
[7] Debit item.
[8] Includes $219,496, "sinking fund."
[9] Includes $2,284,500 held in trust for the conversion of bonds not reported as outstanding.

INDEXES.

EXPLANATORY NOTE.

It will be observed in the "Index to Railways" that following the names of railways are Roman and Arabic numerals, which refer respectively to the numbers of groups and of railways as used in Table I and all succeeding tables in this report, thus furnishing a convenient means of locating any railway on the page referred to. In "Supplement B" of Table I, pages 256 to 261, inclusive, the numbers used apply only to the roads there given, and are the numbers of the same roads appearing in the report for the year ending June 30, 1893. Some of these roads appear in Table II and following tables, with the same number printed in bold-faced type, for the purpose of presenting their statistics up to the date of a corporate change within the present year.

GENERAL INDEX.

Abbreviated names of roads, explanation of, 125.
Accidents, at highway crossings, 76–83, 86, 87, 89, 90.
  at stations, 76–83, 86, 87, 89, 90.
Accidents, due to collisions, 76–83.
  due to other causes, 76–83, 86, 87 89, 90.
  due to overhead obstructions, 76–83, 86, 89.
Accidents, railway, 74–91.
  classification of, by groups—employees, 88, 89.
  classification of, by groups—others, 90.
  comparative summary of, for the years ending June 30, 1894, 1893, 1892, 1891, 1890, 1889, and 1888, 75.
  summary of, by groups, 77–83.
  summary of, by groups—employees, 86.
  summary of, by groups—others, 87.
  summary of, by groups—passengers, 87.
  summary of, showing number of employees and passengers for one killed, injured, etc.—United States and by groups, 84.
  summary of—United States, 74–91.
Accidents, resulting from coupling and uncoupling cars, 76–83, 86, 88.
  resulting from derailments, 76–83, 86, 87, 89, 90.
  resulting from falling from trains and engines, 76–83, 86, 88.
Accidents, to employees, 75–84, 88, 89.
  to other persons, 75–84, 87, 90.
  to passengers, 75–84, 87.
Accrued interest on funded debt, not yet payable, 71.
Adams, Henry C., Statistician, 93, 99.
Aggregate, net decrease in railway mileage, 13.
  of fixed charges, 66.
Alabama, 11.
Alaska, 11.
All employees, number injured, 84.
  number killed, 84.
All other employees and laborers, average daily compensation of, 37, 38.
  number of, 32, 33, 34.
Alphabetical arrangement of names of roads, 125.
Amendments to Act to Regulate Commerce recommended, 91.
Analysis of earnings from operation, comparative summary of earnings and income and, for the years ending June 30, 1894 and 1893, 59.
Analysis of earnings from operation, summary of earnings and income and, by groups, 60, 61, 62.
Analysis of fixed charges, summary of expenditures and, by groups, 67, 68.
Analysis of funded debt, 43.
Analysis of operating expenses, comparative summary of expenditures and, for the years ending June 30, 1894 and 1893, 63.
Analysis of operating expenses, summary of expenditures and, by groups, 63, 64, 65.
Annual report forms, number distributed by Division of Statistics, 93.
  State edition, number of, furnished by Division of Statistics, 93.
Appendix I.—Decisions upon Questions Raised under the Classification of Operating Expenses, 97–102.
Appendix II.—Diagrams, 103–122.
Arabic numerals, Roman and, 646.
Arizona, 12.
Arkansas, 11.
Arrangement of roads in table, 125.
Assets covered by general balance sheet, 71.
Assignment of Equipment per 100 Miles to Length of Line, by Groups, 22.
Assignment of Equipment to Amount of Traffic, by Groups, 22.
Association of American Railway Accounting Officers, committee appointed by, 91.
Automatic coupler, classification of cars in company's service, cars leased, and cars in fast freight line service, fitted with, 31.
  classification of cars in freight service fitted with, by groups, 31.
  classification of cars in passenger service, fitted with, by groups, 30.
  comparative summary of equipment fitted with, showing kind of coupler used, for the years ending June 30, 1894, 1893, 1892, 1891, 1890, and 1889, 28, 29.
  summary of equipment fitted with—cars, 24.
  summary of equipment fitted with—locomotives, 24.
  summary of equipment fitted with, showing kind of coupler used, 26, 27.
Average cost of, carrying one passenger one mile, abandonment of, 70.
  carrying one ton one mile, abandonment of, 70.
  running a train one mile, all trains, 70.
Average, density of passenger traffic, decrease in, 52.
  journey per passenger, 52, 54.
  haul per ton, 52, 54.
  number of passengers in a train, 52, 54.
  number of passengers in a train, increase in, 53.
  number of tons in a train, 52, 54.
  number of tons of freight in a train, decrease in, 53.
  rate paid on dividend-paying stock, 44.
  revenue from each passenger carried, 70.
  revenue from each ton of freight carried, 71.
Balance sheet, general, for the year ending June 30, 1894, 71.
  mileage covered by, 71.
Bold-faced type, use of, 66, 125.
Bonds, amount of, 40.
  amount of, paying no interest, 43, 48.
  classification of, by rate of interest, by groups, 48.
  income from, 62.
  not owned by railway corporations, amount of, 42, 43.
Bonds, income, amount of, 40.
  classification of, by rate of interest, by groups, 50.
Bonds owned, 71.
  decrease in, 73.
  owned by railway corporations, amount of, 42, 43.
  rate of interest paid on, 43, 48.
Bonds, stocks and, decrease in amount of, owned by railway corporations, 42.
  comparative summary of ownership of, for the years ending June 30, 1894, 1893, 1892, 1891, 1890, and 1889, 42.
  owned by railways, by groups, 43.
Business depression, summary illustrating the effect of, on the operations of railways, 72, 73.
California, 11.
Capital, railway, charges against income on account of, during the year ending June 30, 1894, 51.

Capital, railway amount of per mile of line, 41.
decrease in per mile of line, 41
increase in 41
summary of by groups, 40, 41
Capital stock covered by general balance sheet 71
increase in per mile of line, 41.
summary showing amount and per cent of paying dividends and rate and per cent of dividends paid, for the years ending June 30, 1894, 1893, 1892, 1891, 1890, 1889, and 1888, 44
summary showing per cent of paying dividends for the years ending June 30, 1894, 1893, 1892, 1891, and 1890, by groups, 45
Capitalization and Valuation of Railway Properties 39-51
Capitalization, of railways in the hands of receivers, total 10.
Carpenters, average daily compensation of, 37, 38
number of, 32, 33, 34
Carriers by water 91
Cars, freight per 100 miles of line 22
Cars in company's service, cars leased, and cars in fast freight line service fitted with automatic coupler, classification of by groups, 31
fitted with train brake, classification of by groups, 30
Cars in company's service, number of, 21.
number of, per 100 miles of line, 22.
Cars in fast freight line service, number of 21
Cars in freight service fitted with automatic coupler, classification of by groups 31
fitted with train brake, classification of by groups 30.

Official mileage 11, 12
Ohio 11 12
Oklahoma 12 13
Operated mileage, classification of railways on the lines of for the years ending June 30, 1894 and 1893 16
Operating expenses 55 56 57, 58, 61 64 65
analysis of and comparative summary of expenditures for the years ending June 30, 1894 and 1893 63
analysis of and summary of expenditures, by groups, 63 64 65
Operating expenses increase in 72
percentage of to operating income, 60, 70
per mile of line operated 57 58.
Operating roads independent, number of, 16, 17.
subsidiary contingent money rental, number of, 16 17
subsidiary fixed money rental, number of, 16 17
subsidiary number of 16, 17
subsidiary other relation number of 16, 17.
Operation income from, 55 56 57 58
Operations of railways, summary illustrating the effects of business depression on 72, 73.
Operations, surplus from 55, 56 57 58.
Oregon 11
Organization for operation classification of roads according to, by groups, 17.
Other causes accidents due to, 76–83, 86, 89, 90.
Other earnings from freight service, 59 60, 61, 62.
decrease in 59
Other earnings from operation 59, 60, 61, 62, 69
Other earnings from passenger service 59, 60, 61, 62
decrease in, 59.
Other employees number of injured, 76–83, 88.
number of, killed 76–83, 88
Other forms of indebtedness amount of, 41
per mile of line, 41.
Other officers, average daily compensation of, 37, 38
number of, 32, 33, 34.
Other payments from net income 51
Other persons, accidents to, 75–84 87 90.
Other shopmen, average daily compensation of, 37, 38.
number of 32, 33, 34.
Others not trespassing injured, 76–84, 90
not trespassing killed, 76–84, 90.
Other sources income from 55, 56 57, 58, 59, 60 61, 62
Other station men, average daily compensation of, 37 38.
number of, 32, 33, 34.
Others, trespassing, injured, 76–84, 90.
trespassing killed, 76–84 90.
Other train accidents, 76–83, 86, 87 89, 90.
Other trainmen average daily compensation of, 37 38.
number of, 32 33, 34.
Other trackmen average daily compensation of, 37, 38.
number of 32, 33, 34.
Overhead obstructions, accidents due to, 76–83, 86 89
Passenger and freight service comparative summaries of for the years ending June 30, 1894, 1893, 1892 and 1891 52
Passenger average journey per 52 54
Passenger cars per 100 miles of line 22
per 1,000, 00 passengers carried 23.
per 1,000 000 passengers carried decrease in, 23.
Passenger earnings per mile of road, 70.
Passenger locomotives number of 20
per 100 miles of line 22
Passenger miles per passenger locomotive, 22.
per passenger locomotive decrease in, 23
Passenger revenue, 59 60 61 62.
decrease in 59
Passenger service, other earnings from, 59, 60, 61, 62
Passenger train mileage, 52 54 72
decrease in 53
Passenger trains, revenue per train mile, 70.
Passenger traffic, average density of, decrease in 52.
Passengers, accidents to, 75–84, 87.
Passengers carried 52, 54.
carried increase in 52.
carried, increase in 72
carried one mile 52, 54.
carried one mile increase in, 72
carried one mile per mile of line 52 54.
carried one mile per mile of line, decrease in, 52.
carried per passenger locomotive 22
carried per passenger locomotive decrease in, 23.
Passengers employees and, summary of railway accidents showing number of for one killed, injured, etc United States and by groups, 84
Passengers on a train average number of 52, 54
increase in 53
Passengers, number carried for one injured, 54.
number carried for one killed, 54
number carried one mile for one injured, 54
number carried one mile for one killed 54.
Passengers number of injured, 75–84, 87
number of killed 75–84, 87
Peculiarities of the transportation industry in the year 1894 9 10.
Pennsylvania, 11 12

Permanent improvements charged to income account, 68.
Persons, number of, deprived of income by depression in transportation business, 35, 36.
Population of United States, estimated annual increase in, 10.
Preferred stock, amount of, 40.
Private roads, "line owned" not in operation, 16, 17.
Private roads, number of, 16, 17.
Profit and loss, 71.
Property, railway, capitalization and valuation of, 39–51.
Proprietary companies, increase in line of, 15.
Public Service of Railways, 51–53.
  summary showing, by groups—freight service, 54.
  summary showing, by groups—passenger service, 54.
Railroad Commissioners, Convention of, 92.
Railway accidents, 74–91.
  classification of, by groups—employees, 88, 89.
  classification of, by groups—others, 90.
  comparative summary of, for the years ending June 30, 1894, 1893, 1892, 1891, 1890, 1889, and 1888, 75.
  summary of, by groups, 77–83.
  summary of, by groups—employees, 86.
  summary of, by groups—others, 87.
  summary of, by groups—passengers, 87.
  summary of, showing number of employees and passengers for one killed, injured, etc.—United States and by groups, 84.
  summary of—United States, 76.
Railway capital, increase in, 41.
Railway capital per mile of line, decrease in, 41.
Railway capital, summary of, by groups, 40, 41.
  total, per mile of line, 41.
Railway construction during year, 12.
Railway corporations, total number of, 16, 17.
Railway extension, percentage of increase in, 12.
Railway line, per 10,000 inhabitants, 12.
  per 100 square miles of territory, 11, 12.
Railway mileage, for which reports were filed with the Commission, 14.
  in the United States, increase in, 12.
  in the United States, summary of, by States and Territories, 11, 12.
  localization of increase in, 12.
  summary of, by groups, 12.
  summary of, by groups, showing length of single track, second track, third track, fourth track, and of yard track and sidings, 14.
Railway operations, localization of, 13.
Railway property, capitalization and valuation of, 39–51.
Railways, classification of, 15–19.
  in the hands of receivers, number of, 10.
  in the hands of receivers on June 30, 1894, summary showing, 94–96.
  in the hands of receivers, total capitalization of, 10.
  men employed on, 32–39.
  public service of, 51–53.
  summary of changes in list of, during the years ending June 30, 1894 and 1893, 17.
Rate of dividends paid on stock, 43, 46.
Receivers, mileage of railways in the hands of, 10.
  number of railways in the hands of, 10.
  summary showing railways in the hands of on June 30, 1894, 94–96.
Recommendations, 91.
Rentals, 389, 453.
Rentals, income from, 62.
Rents paid for lease of road, 67.
Reorganization of railway accounts, progress of, 91.
Results, summary of, 70, 71.
Revenue, average, from each passenger carried, 70.
  from each ton of freight carried, 71.
  from carrying express, 59, 60, 61, 62.
  from carrying mail, 59, 60, 61, 62.
Revenue, passenger, 59, 60, 61, 62.
  per passenger per mile, 70.
  per ton of freight per mile, 70, 71.
  per train mile, all trains, 70.
Revenue, per train mile, freight trains, 70, 71.
  per train mile, passenger trains, 70.
Revised Classification of Operating Expenses, number distributed by Division of Statistics, 93.
Rhode Island, 11.
Road, cost of, 71.
Roads, abandoned, 17.
  classification of, according to organization for operation, 16.
  classification of, according to organization for operation, by groups, 17.
  consolidated, 17.
  merged, 17.
  no longer in existence, 17.
  reorganized, 17.
  the names of which have been corrected, 17.
  which have changed their names, 17.
  which operate less than 250 miles of line, number of, 18.
  which operate 250 to 400 miles of line, number of, 18.
  which operate 400 to 600 miles of line, number of, 18.
  which operate 600 to 1,000 miles of line, number of, 18.
  which operate more than 1,000 miles of line, number of, 18.
Rolling stock, corporation, companies, or persons owning, 91.
  general decrease in, 23.
Roman and Arabic numerals, use of, 646.
Salaries and maintenance of organization, 67.
Second track, mileage of, 14.
  increase in, 14.
Section foremen, average daily compensation of, 37, 38.
  decrease in number of, 36.
  number of, 32, 33, 34.
Single track, mileage of, 14.
  increase in, 14.
Sinking fund and sundries, 71.
South Carolina, 11.
South Dakota, 11.
Stations, accidents at, 76–83, 86, 87, 89, 90.
Station agents, average daily compensation of, 37, 38.
  number of, 32, 33, 34.
Statistician, 93.
Statistician, Assistant, 93.
Stock, amount of, paying dividends, 44
  amount of, paying no dividends, 43, 46.
  common, amount of, 40.
  common, dividends paid on, 51.
  dividend-paying, average rate paid on, 44.
  paying no dividends, localization of, 44.
  per mile of line, amount of, 40.
  preferred, amount of, 40.
  preferred, dividends paid on, 51.
  total amount of, 40.
Stocks and bonds owned by railways, summary of, by groups, 43.
  owned by railways, decrease in, 42.
Stocks and bonds, railway, comparative summary of ownership of, for the years ending June 30, 1894, 1893, 1892, 1891, 1890, and 1889, 42.
Stocks and funded debt, condensed statement of, classified by rate of dividend or interest, 43.
Stocks, classification of, by rate of dividend, by groups, 46.
  income from, 62.
  not owned by railway corporations, amount of, 42, 43.
  owned, 71.
  owned by railway corporations, amount of, 42, 43.
  owned, decrease in, 73.
  per cent of, paying dividends, 44.
  rates of dividends paid on, 43, 46.
Street railways eliminated from list of railways, 17.
Subsidiary roads, contingent money rental, number of, 16, 17.
  fixed money rental, number of, 16, 17.
  "line owned" not in operation, number of, 16, 17.
  other relation, number of, 16, 17.

Summary, comparative, of average daily compensation of railway employees for the years ending June 30, 1894, 1893, and 1892, 37, 38.
Summary, comparative, of earnings and income and analysis of earnings from operation for the years ending June 30, 1894 and 1893, 59
Summary, comparative, of employees, by class and per 100 miles of line for the years ending June 30, 1894, 1893, 1892, and 1891, 32.
Summary, comparative, of equipment fitted with automatic coupler, showing kind of coupler used, for the years ending June 30, 1894, 1893, 1892, 1891, 1890, and 1889, 28, 29
Summary, comparative, of expenditures and analysis of operating expenses for the years ending June 30, 1894 and 1893, 63.
Summary, comparative, of ownership of railway stocks and bonds for the years ending June 30, 1894, 1893, 1892, 1891, 1890, and 1889, 42.
Summary, comparative, of passenger and freight service for the years ending June 30, 1894, 1893, 1892, and 1891, 52
Summary, comparative, of railway accidents for the years ending June 30, 1894, 1893, 1892, 1891, 1890, 1889, and 1888, 75
Summary, comparative, of results deduced from Table III and Table IV, for the years ending June 30, 1894, 1893, 1892, 1891, 1890, and 1889, 70
Summary illustrating the Effect of the Business Depression on Operations of Railways, 72, 74.
Summary of Changes in List of Railways During the Years ending June 30, 1894 and 1893, 17.
Summary of Earnings and Income and Analysis of Earnings from Operation, by Groups, 60, 61, 62
Summary of Equipment, by Groups—Cars, 21
Summary of Equipment, by Groups—Locomotives, 20
Summary of Equipment Fitted with Automatic Coupler—Cars, 24
Summary of Equipment Fitted with Automatic Coupler—Locomotives, 24
Summary of Equipment Fitted with Automatic Coupler, by Groups, showing Kind of Coupler Used, 26, 27
Summary of Equipment Fitted with Train Brake—Cars, 24
Summary of Equipment Fitted with Train Brake—Locomotives, 23
Summary of Equipment Fitted with Train Brake, by Groups, showing Kind of Brake Used, 26.
Summary of Expenditures and Analysis of Fixed Charges, by Groups, 67, 68.
Summary of Expenditures and Analysis of Operating Expenses, by Groups, 63, 64, 65.
Summary of Income from Other Sources, by Groups, 62
Summary of Railway Accidents, by Groups, 76–83
Summary of Railway Accidents, by Groups—Employees, 86
Summary of Railway Accidents, by Groups—Others, 87
Summary of Railway Accidents, by Groups—Passengers, 87
Summary of Railway Accidents, showing number of Employees and Passengers, for one Killed, Injured, etc., United States and by Groups, 84
Summary of Railway Accidents—United States, 86
Summary of Railway Capital, by Groups, 40, 41
Summary of Railway Mileage, by Groups, 12.
Summary of Railway Mileage, by Groups, showing Length of Single Track, Second Track, Third Track, Fourth Track, and of Yard Track and Sidings, 14
Summary of Railway Mileage, the United States, by States and Territories, 11, 12
Summary of Results, 70, 71
Summary of Results Deduced from Table III and Table IV, by Groups—Freight Service, 71
Summary of Results Deduced from Table [illegible]
Summary of Stocks and Bonds Owned by Railways, by Groups, 43
Summary showing Amount and Per Cent of Capital Stock Paying Dividends and Amount and Rate Per Cent of Dividends for the Years ending June 30, 1894, 1893, 1892, 1891, 1890, 1889, and 1888, 44
Summary showing average daily compensation of employees, by classes, explanation of, 36,
Summary showing Public Service of Railways, by Groups—Freight Service, 54
Summary showing Public Service of Railways, by Groups—Passenger Service, 54
Summary showing Per Cent of Capital Stock Paying No Dividends for the Years ending June 30, 1894, 1893, 1892, 1891, and 1890, by Groups, 45.
Summary showing Railways in the Hands of Receivers on June 30, 1894, 94–96
Summary showing the Proportion of Earnings from Operation Assignable to Passenger and Freight Service, and the Percentage of Operating Expenses to Operating Income, by Groups, 69
Surplus from Operation, 55, 56, 57, 58, 73
per mile of line operated, 57, 58
Supplies, materials and, 71
Switching locomotives, number of, 20
per 100 miles of line, 22.
Switchmen, flagmen and watchmen, average daily compensation of, 37, 38
number of, 32, 33, 34
number of, injured, 76–83, 88
number of, killed, 76–83.
Table I—Classification of Railways and Mileage for the Year ending June 30, 1894, 123
Explanatory Note, 125
Supplement A—Showing totalized figures for certain roads lying in more than one group], 264
Supplement B—Corporate Changes for the Year ending June 30, 1894, 250
